# INTRODUCTION

The staff at Mount Vernon Community High School has developed this Course of Studies booklet. Its purpose is to provide information about the courses offered at Mount Vernon High School next school year. This guide will help students and their parents become better acquainted with the content of specific courses and will aid students in the course selection process that will be taking place in February.

## HOW TO USE THIS COURSE GUIDE

In this booklet, you will find a brief description of each course offered at Mount Vernon High School.

The length of each course, recommended grade level, credit allotted, and any prerequisite for each course are listed. Prerequisites are conditions that must be met before enrollment. These prerequisites are established to provide the maximum assurance that the courses will be completed satisfactorily. A student who passes a course may not repeat that course for credit, unless indicated or approved by administration, but may repeat the course to earn a higher grade.

Students and parents are encouraged to read the descriptions, consider the recommendations made by your current instructors, discuss possible selection options, and be prepared to determine your final course selections in time for course registration, usually held in February.

Keep in mind that the counselor, registrar, and teachers are available to assist students and their parents in the selection of subjects and extra-curricular activities. It is recommended that parents contact the High School counselor regarding aptitude and achievement test scores when making college or vocational plans. Appointments with the counselor or administrative staff may be made by calling 895-8843.

Some courses are required at each grade level. Be sure to include them on your form for next year. It is required that every student, grades 9-11, take a minimum of thirteen (13) classes each academic year. It is recommended that seniors take a minimum of twelve (12) classes. Students must be enrolled in four (4) courses each semester to be considered a full-time student. A class is defined as any academic course in any of the core and/or vocational areas as well as band, choir, orchestra, and physical education. (Students should check the graduation requirements on page 6).

Before completing your course request form, read this course guide very carefully. Included in it are the requirements for graduation as well as the courses that will be offered for next year. After carefully reading the entire guide, you are to list the courses you wish to take on your grade level's course request form.

High School students all too often forget that the record they make during their high school career is part of their permanent record for life. Employers, colleges, and military personnel often contact the school for information about students. They are not only interested in grade point averages and class rankings, but they also want to know about attendance, behavior, extra-curricular involvement, etc. Your administrators, teachers, and counselor constantly remind you of the value of developing an appealing body of classes and activities during your four years at MVHS. Your parents should also help in stressing the importance of doing your best. Not all students can be top scholars, athletes, actors, musicians, cheerleaders, etc., but everyone should be attempting to do their best.

The records you establish in high school are important, as they are the start of life-time careers. It is essential that students plan for the future and contribute to their own growth as they progress through their high school years.

# NCAA Eligibility

If you wish to participate in NCAA Division I or II athletics, you need to be certified by the NCAA Eligibility Center. You need to qualify academically and you will also need to be cleared as an amateur student-athlete. You are responsible for achieving and protecting your eligibility status!

For more detailed information and to obtain a downloadable copy of the NCAA's official "Guide for College Student-Athletes", be sure to go to the NCAA Eligibility Center web site at: [www.eligibilitycenter.org](http://www.eligibilitycenter.org). You can also get a complete list of Mount Vernon High School's approved NCAA core courses by visiting the NCAA's web page. You can enter the site as an NCAA College-Bound Student-Athlete. Navigate to the "Resources" tab, click "U.S. Students", and then "List of NCAA Courses". You will find a complete list of Mount Vernon High School's approved NCAA core courses by typing in our school's 6-digit CEEB/ACT code: 163065.

Also available on the NCAA site are lists of the number of core courses in English, mathematics, science, social studies, and foreign language that any potential Division I or Division II student-athlete must complete in high school in order to be eligible for athletic competition as a first-year college student.

## Checklist for College-Bound Student-Athletes

If you think there may be a chance that you will be recruited as an NCAA Division I or Division II athlete, you should do the following:

- Beginning in your freshman year of high school, take rigorous and challenging course work.
- Register at the beginning of your junior year at [www.eligibilitycenter.org](http://www.eligibilitycenter.org).
- Ask your high school counselor to send your transcript to the NCAA Eligibility Center at the end of your junior year.
- Take the ACT or SAT and use the code "9999" to have your official scores sent directly to the NCAA Eligibility Center.
- Check with your high school counselor to make sure you are on track to graduate on time with your class and have the required number of core courses.
- Request final amateurism certification during your senior year (beginning April 1).
- Ask your high school counselor to submit your final transcript with proof of graduation.

## Mount Vernon High School's "Denied / Not Recognized" NCAA Core Courses

The NCAA Eligibility Center regularly evaluates high school course content and makes a judgment as to whether a core course (a course in only the areas of English, mathematics, social studies, science, or foreign language) is "approved" or "recognized" in determining initial eligibility to compete upon entering college. Only high school core courses that have been approved by the NCAA Eligibility Center may be used by a potential Division I or Division II student-athlete to meet the number of core courses required to be considered eligible for college athletic competition. The Mount Vernon High School core courses listed below have NOT been approved for eligibility consideration by the NCAA Eligibility Center.

\*\*It should be noted that all of these courses continue to meet the Mount Vernon School Board's standards as rigorous and comprehensive courses with credit applying toward graduation. Additionally, these are recognized core courses in all calculations related to the Regents Admission Index (RAI) as used by Iowa's three state universities for admission consideration.

# COURSES – STUDENT DROP / ADD REQUESTS

At Mount Vernon High School the staff believes all students can learn and need to be in challenging and rigorous classes. Students are responsible for determining and accepting the course of study for which they register. They must plan very deliberately, always keeping in mind high school graduation requirements, individual abilities and interests, and post high school plans. Schedule adjustments will be made for academic reasons only. In many cases, parent permission will be required, but does not guarantee a schedule adjustment. Students are to limit their visits to the guidance office to make schedule changes to “one and done”.

Students must request to drop or add courses within the first three (3) days of each semester. Dropping a class after the third day of a semester will result in a grade of “F” on the student’s transcript. Drop / Add forms requiring parent and teacher signatures may be used to make any schedule change. Remember, students must be enrolled in four (4) courses each semester to be considered a full-time student.

Schedule changes are limited and will be based on the following criteria:

- 1. Will be made during your free time only. You will not be excused from classes to make changes.**
- 2. Only adds or drops allowed. Shuffling of classes for convenience is discouraged.**
- 3. No additions to sections with enrollment already at the designated maximum level.**
- 4. Changes can be made for legitimate educational reasons. If you have extenuating circumstances that you believe justify a schedule change please see a counselor. Unless there are unusual circumstances, the counselor will not allow changes such as.....**
  - a. to change teachers**
  - b. to change lunch periods**
  - c. to change to a friend’s class**
  - d. to change to a section with more students than the section you are already in.**
- 5. Administrative approval may be required for some schedule changes.**

# GRADUATION REQUIREMENTS

**Physical Education** 2.0 credits (0.5 / year)  
**Health 9** \* 0.25 credit (J-Term – 9<sup>th</sup> grade)

*All students must successfully gain credit and complete 3 years of Mathematics, science, and social studies during the 9-12 grade span.*

**Mathematics** 3.0 credits  
**Science – must include:** 3.0 credits

**Earth Science** \* 1.0 credit

**Biology** \* 1.0 credit

**Physical Sciences** \* 1.0 credit

**Social Studies - must include:** 3.0 credits

**US History** \* 1.0 credit

**World History** \* 1.0 credit

**Political Science** \* 0.5 credit

*All students must successfully gain credit and complete 4 years of English during the 9-12 grade span.*

**Language Arts – must include:** 4.0 credits

**English I** \* 1.0 credit

**English II** \* 0.5 credit

**One Communication Course** \* 0.5 credit

**One Literature Course** \* 0.5 credit

**One Composition Course** \* 0.5 credit

**Financial Literacy (Grade 11 or 12)** 0.5 credit

**Electives – must include:** 10.0 credits

**Fine Arts/Practical Arts/Vocational Education** \* 1.0 credit

**CPR Completion (no credit, but must have to graduate, taught during Health 9)**

*All students must successfully participate every academic school year in the MVHS J-Term.*

*(The only exception is a senior who is graduating at the end of the 1st semester and not returning for the 2nd semester.)*

**Total Credits** **25.5 credits**

**SUCCESSFULLY COMPLETED COURSES THAT MEET DAILY EARN .5 CREDIT / SEMESTER.** All students are required to comply with the attendance policies set forth by the Board of Education. Failure to comply with this policy may affect a student's graduation status. Students will be allowed to participate in the graduation ceremony and in all senior activities if they are in good standing and have met or exceeded the graduation requirements set by the Board. Students are not required to participate in the graduation ceremony. Graduation requirements are subject to review for students who transfer from other school districts.

# CAREER EXPLORATION OPPORTUNITIES

- **INTERNSHIP - .5 credit**

**GRADES 11-12 ONE SEMESTER COURSE**

**PREREQUISITE: COMPLETE A JOB SHADOW**

Through its internship program, the Workplace Learning Connection offers students a chance to gain work experience and specific knowledge about a particular career by spending time on a real job site.

High school juniors and seniors are assigned to a job site for 90 hours of planned and supervised career experiences spread over a 9-week period. Interns learn new skills, apply classroom knowledge in a real-world setting, develop employability behaviors that better prepare them for the workplace, and gain insight that will help them make more informed career choices. There are three requirements to meet in order to receive elective credit through MVHS:

- Complete 90 hours on a job site, working 2 hours per day for at least a 9-week period. Note that this requirement will mean blocking out at least a 2-hour window of time during the regular school day, thus limiting total class availability at MVHS. You will earn .5 unit of elective credit at MVHS for your 90-hour commitment.
- Complete the Guided Student Journal provided by the Workplace Learning Connection.
- Attend and participate in the three career development meetings sponsored by the Workplace Learning Connection.

A job internship is a real-life career exploration opportunity. The experience is designed for a student who has accumulated enough credits to allow the time to spend off-campus on a job site. Even though the internship will most likely be completed in 9 weeks, a student will have to make time available in his/her regular school schedule throughout an entire semester.

- **JOB SHADOW – NO CREDIT**

**GRADES 10-12 1 DAY**

**NO PREREQUISITES**

Job shadow students go into the workplace and spend two to six hours learning as much as they can about a specific job. Students will observe and interact with employers and workers on an actual job site to see if this career is a good fit for them.

In general, a student may apply for one job shadow experience per semester. Application forms must be completed and are available to students in late August (to apply for a first-semester job shadow) and in early December (to apply for a second-semester job shadow).

This experiential learning helps students better understand available local careers, as well as make a connection between what they're learning in high school and what will be required of them as employees.

Students must apply for a job shadow in a specific career area. Once assigned to a job shadow a student is responsible to:

- Contact the employer to verify that the student will attend the job shadow opportunity.
- Complete and return a MVHS pre-absence form at least one day prior to going on the job shadow.
- After the job shadow, complete an online survey to provide feedback to the employer and to the Workplace Learning Connection.
- After the job shadow, complete a "Thank You" post card, addressed to the employer. The post card is supplied and mailed by the Workplace Learning Connection.

A job shadow is a real-life career exploration opportunity. The experience is designed for a student who wants more direct information about a specific career area. A job shadow student must be responsible and dependable. The student will miss regular classroom time and must make up all missed work. A student must meet application deadlines, contact the employer in advance to verify attendance and follow up with the employer after the job shadow experience.

- No grade or credit is awarded for completing a job shadow.

# CAREER PATHWAYS

**Arts/Communications**  
**Business/Marketing & Information Management**  
**Health Services**  
**Agri-Science/Natural Resources**

- At MVHS we acknowledge six **Career Pathways** that hopefully encompass most occupations. Please examine each pathway to help determine your career field. On the preceding page, we have listed those courses under the various pathways that we feel will benefit you in pursuit of a given career.

\*\*\*\*\*

- The **Arts & Communications** pathway is designed to meet the needs of students considering career fields from art, choral music, instrumental music, creative writing, public speaking, drama, etc.

\*\*\*\*\*

- The **Business/Marketing & Information Management** pathway is designed to meet the needs of students considering career fields from accounting, sales, marketing, banking, business management, etc.

\*\*\*\*\*

- The **Health Services** pathway is designed to meet the needs of students considering career fields in any type of health occupations including nursing, lab tech, medical records, pharmacist, doctor, etc.

\*\*\*\*\*

- The **Agri-Science/Natural Resources** pathway is designed to meet the needs of students considering career fields from plant and animal science, conservation, agriculture, agri-science, agriculture business and industry, environmental study, etc.

\*\*\*\*\*

- The **Engineering & Industrial Technologies** pathway is designed to meet the needs of students considering career fields from electronics, drafting, construction, engineering, manufacturing, maintenance, etc.

\*\*\*\*\*

- The **Family & Human Services** pathway consists of career fields such as law enforcement, education, cosmetology, culinary arts, social worker, childcare provider, etc.

## COLLEGE CREDIT OPPORTUNITIES SENIOR YEAR PLUS

Through Iowa's state program called Senior Year Plus, school districts are provided with a variety of options to enhance students' high school experiences. Enacted by the legislature in 2008, Senior Year Plus was created to provide increased and more equal access to college credit and advanced placement courses. Courses delivered through Senior Year Plus provide students the opportunity to take a rigorous college curriculum and receive, in many cases, both high school and college credit concurrently.

Iowa is one of at least 38 states with state policies supporting the enrollment of high school students in college coursework. The vast majority of college credit opportunities available to high school students are provided through Senior Year Plus. Senior Year Plus serves as an umbrella for a variety of programs including Postsecondary Enrollment Options (PSEO), concurrent enrollment and career academies.

Mount Vernon High School, in cooperation with area colleges, offers a wide variety of dual credit (credit given on both a high school and college transcript) college courses to students (usually seniors or advanced status underclass students).

## Post-Secondary Enrollment Option (PSEO) courses

A Post-Secondary Enrollment Option course is the more “typical” college ‘Arts and Sciences’ classroom course that most people picture when they think of college. If a student intends to enroll in a Senior Year Plus PSEO college credit class, the student must meet certain criteria explained below. Only students who have met the criteria listed below will be permitted to enroll in a college credit class as part of the MVHS registration process conducted each spring.

The prerequisites for enrollment in our PSEO college credit courses are:

- Students must demonstrate proficiency in *each* of three academic areas - reading, mathematics and science - as measured by standardized scores on the Iowa Assessments.
- Students enrolling in a CTE course (Career and Technical Education) course are exempt from the requirements to demonstrate proficiency on the Iowa Assessments in reading, math, and science (as per Iowa Code changes – summer 2012). Students may be required to complete and pass an initial assessment administered by the community college to determine readiness for enrolling in CTE coursework.
- The PSEO option is intended for 11<sup>th</sup> and 12<sup>th</sup> grade students as part of their 4-year plan. Students in grades 9 and 10 who have earned Iowa Assessment national percentile scores of at least 95 in reading *or* mathematics *or* science are eligible under this program.
- At Kirkwood Community College, students must take either the ALEKS test for math and the ACCUPLACER test for reading *or* the ACT/SAT test and have a qualifying score that meets Kirkwood admission requirements. Interested students should check in the MVHS guidance office to look at the specific scores required. The ALEKS/ACCUPLACER tests can be taken at no cost on the Kirkwood campus. While no test appointment is necessary it is recommended that a student call ahead to set up a test time. Call the Kirkwood Test Center in Cedar Hall at 319-398-5456. For the ACT, students must plan ahead and register in advance. Do not expect to receive ACT results for at least 4 weeks following the test date.
- Students may not take a college-credit class unless they have previously taken the highest level of the MVHS class in the corresponding curriculum area. For example, a student may not take college Composition 1 until completing the Honors Composition course here. Another example would be not taking the college course Introduction to Psychology until completing the high school psychology class.
- Full time MVHS students are eligible to take advantage of Senior Year Plus opportunities. Students must be enrolled in four (4) courses each semester through MVHS to be considered a full-time student.
- Students who don’t meet the qualifying scores established by area colleges will forfeit the opportunity to enroll in a college credit class.
- Students must be willing to re-arrange their high school schedule to allow for travel time to the college campus or to make room for a free class period during the school day to work on an online course.
- Students must pay a deposit of \$250 (a check written to Mount Vernon High School) for *each* college credit class they enroll in. That deposit will be forfeited if the student fails the class or withdraws from the class.
- Students must complete a college application for admission and, for Kirkwood, a PSEO enrollment form prior to the Kirkwood enrollment deadline (typically in late July for first semester courses and by mid-November for second semester courses). Usually, enrollment forms must be completed at the time of registration for MVHS classes.

## Concurrent Enrollment Courses

Mount Vernon High School has partnered with Kirkwood Community College to offer concurrent enrollment course work that meets the needs of students wanting to explore a specific career or technical program at Kirkwood, as well as transferable general education course work to enhance any college major.

Concurrent enrollment courses are typically taught at Mount Vernon High School by Mount Vernon faculty who meet Kirkwood’s teacher credentials requirements. Qualified MVHS instructors adhere to the approved Kirkwood course syllabus and offer the college-level course within the high school’s regular class schedule. Students who meet the

Senior Year Plus academic proficiency requirements as indicated on results of the Iowa Assessments (listed above) will, upon course completion, receive both high school and college credit for their course work.

Concurrent Enrollment offerings at Mount Vernon High School include:

**Business and Information Technology:**

BCA213: Intermediate Computer Business Applications

BCA179: Powerpoint Multimedia

CIS207: Fundamentals of Web Programming

**Culinary Arts:**

HCM227: Menu Planning

HCM231: Nutrition

**Project Lead the Way (PLTW):**

EGT400: PLTW Introduction to Engineering Design

EGT410: PLTW Principles of Engineering

EGT460: PLTW Civil Engineering and Architecture

**Industrial Technology:**

CON116: Architectural Plans & Specs

**Mathematics:**

MAT157: College Statistics

### Kirkwood Shared Career Edge Academy Programs

Kirkwood's Career Edge Academies provide sequenced and career-focused college credit classes that often lead to industry-recognized skills or certification. Instruction is specific to the skills needed to perform job-related tasks in a particular career area. Career Academies are offered as shared programs (that students from more than one high school can attend) in a central location. Often, Career Academy courses take up approximately two hours per day throughout the academic year. Students earn college credit and also earn .5 high school credit per class completed within the year-long program. The Career Edge Academy Programs available are:

Adv. Manufacturing/Engineering Technology

Agriculture Science

Architecture/Construction Management

Arts/Sciences

Automotive Technology

Business

Criminal Justice

Dental

Education

EMT/Firefighter

Energy/Industrial Maintenance

Graphics/Media Communications

Information Technology

Interior Design

Math/Science

Paralegal/Pre-law

Patient Care

Pharmacy Tech

Phys. Therapy Ass't./Occ. Therapy Ass't.

PLTW: Biotech Engineering

PLTW: Digital Electronics

Transportation

Welding

For more specific information about the courses and career training provided in each of the Kirkwood Career Edge Academy programs you can go to: [www.kirkwood.edu/careeracademies](http://www.kirkwood.edu/careeracademies)

### Things to Consider about Senior Year Plus offerings:

All Senior Year Plus courses, whether a part of PSEO or concurrent enrollment or Career Edge Academy offerings, are considered Kirkwood college courses. Students must be aware that the grade they receive for any Kirkwood class will be the grade they receive for that class on their high school transcript. In addition, MVHS receives no

progress reports from Kirkwood about student performance and so the students are ultimately responsible for monitoring their own progress and success.

Students must consider that there can be serious consequences for poor grades in college classes. All grades for Kirkwood classes also go on the official Kirkwood college transcript. A student who does poorly on college classes creates a low college grade point average (GPA) which may put that student on academic probation when arriving on a college campus the following fall. Academic probation status sometimes leaves a college student ineligible to receive financial aid. Please consider all the consequences, good or bad, of taking college level course work.

## Advanced Placement (AP) Online Courses

### Through Iowa Online Advanced Placement Academy (IOAPA)

Information about **AP Online** courses:

- AP Online courses are rigorous, **college**-level classes offered in a variety of disciplines.
- Any junior or senior may take AP Online courses.
- Freshmen and sophomore ELP students may take AP Online courses.
- Students must have an open period in their schedule for an AP Online course.
- Student should feel very comfortable with online course format and be an independent learner.
- Students will have both an online instructor and a mentor available at school for additional in-person support.

Space is very limited in these courses; classes will be filled on a first-come, first-serve basis. Registration for an online AP course must go through the counselor's office. Registration for first semester begins in April and must be completed no later than mid-June. Registration for second semester begins in November and must be completed before winter break.

Advanced Placement courses available:

AP Biology  
AP Calculus AB  
AP Chemistry  
AP Computer Science A  
AP Computer Science Principles  
AP English Language & Composition  
AP English Literature & Composition  
AP Macroeconomics\*  
AP Microeconomics\*  
AP Psychology\*  
AP Spanish  
AP Statistics  
AP US Government and Politics\*  
AP US History

Introduction to Computer Science\* - 9th grade only  
(A semester-long online class designed to help prepare students for AP computer science classes.)

\*denotes semester-long class, all others are year-long

Course details are listed on the IOAPA course catalog page at:  
<http://www2education.uiowa.edu/belinblank/students/ioapa/Catalog.aspx>

Contact: DeAnn Searce, ELP Coordinator  
Phone: 895-6254, ext 3122  
E-mail: [dscearce@mountvernon.k12.ia.us](mailto:dscearce@mountvernon.k12.ia.us)

## Advanced Placement (AP) Exams

**Advanced Placement Exams** are generally scheduled to be taken nation-wide during the first two weeks of May. AP exams can be taken at Mount Vernon High School. The exams cover many different content areas: Language Arts, Science, Math, Music, Art, Social Studies, and World Languages. For more details about AP Exams, visit the College Board online at: <https://apstudent.collegeboard.org/takingtheexam/ap-calendar/>

Generally, students who have taken honors level courses at Mount Vernon High School have been well-prepared for the AP Exams. A few students who adapt well to an online environment may take an online AP course offered through the University of Iowa and the Belin-Blank Center. Arrangements to take an online AP course must be made prior to the beginning of the school year. Scores on the AP Exams range from 1 to 5. A score of 5 is the highest score.

Students may wish to take one or more AP exams for several different reasons:

- College credit - most institutions in Iowa recognize a score of 3 or better, but check first
- College course placement - a score on an AP exam may help in selecting the right course
- College readiness - a score may be an indication of student understanding of course concepts
- College opportunities - scoring well on 2 or more exams could help a student secure admission or scholarships. Students who score well on 2 or more exams may be recognized as an AP Scholar.

Students and parents should talk to their child's teacher about how their course(s) may help prepare them for the exam. In some instances there may be better options than AP, such as PSEO or other college testing/portfolio programs.

Mount Vernon High School has developed opportunities for students to prepare for and take rigorous courses and exams. Students may register in late February or early March for the exams. AP Exams results are received in July.

## High School Course Requirements for Admission to Iowa's Regent Universities

In addition to meeting the Regent Admission Index requirement, students must complete the minimum number of high school courses specified below for the institution to which they're applying.

Subject Area	Iowa State University	The University of Iowa	University of Northern Iowa
<b>English/Language Arts</b>	Four years of English/Language Arts emphasizing writing, speaking, reading, as well as an understanding and appreciation of literature.	Four years, with an emphasis on the analysis and interpretation of literature, composition, and speech.	Four years, including one year of composition; also may include one year of speech, communication, or journalism.
<b>Math</b>	Three years, including one year each of algebra, geometry, and advanced algebra.	Three years, including two years of algebra and one year of geometry, for admission to the <b>College of Liberal Arts and Sciences</b> . Four years, including two years of algebra, one year of geometry, and one year of higher mathematics (trigonometry, analysis, or calculus), for admission to the <b>College of Engineering</b> .	Three years, including the equivalent of algebra, geometry, and advanced algebra.
<b>Natural Science</b>	Three years, including one year each from any two of the following: biology, chemistry, and physics.	Three years, including one year each from any two of the following: biology, chemistry, and physics for admission to the <b>College of Liberal Arts and Sciences</b> . Three years, including at least one year of chemistry and one year of physics, for admission to the <b>College of Engineering</b> .	Three years, including courses in general science, biology, chemistry, earth science, or physics; laboratory experience highly recommended.

<b>Social Science</b>	Two years for admission to the <b>Colleges of Agriculture, Business, Design, Human Sciences, and Engineering</b> . Three years for admission to the <b>College of Liberal Arts and Sciences</b> .	Three years, with U.S. history and world history recommended for admission to the <b>College of Liberal Arts and Sciences</b> . Two years, with U.S. history and world history recommended, for admission to the <b>College of Engineering</b> .	Three years, including courses in anthropology, economics, geography, government, history, psychology, or sociology.
<b>Foreign Language</b>	Two years of a single foreign language for admission to the <b>College of Liberal Arts and Sciences</b> and the <b>College of Engineering</b> . Foreign language courses are not required for admission to the <b>Colleges of Agriculture, Business, Design, or Human Sciences</b> .	Two years of a single foreign language.	Foreign language courses are not required for admission. However, two years of a foreign language in high school with a C- or above in the last term will meet the university graduation requirement.
<b>Other Courses</b>	Specific elective courses are not required for admission to Iowa State University.	Specific elective courses are not required for admission to The University of Iowa.	Two years of additional courses from the required subject areas, foreign languages, or fine arts.

Note: Non-resident freshman applicants may be held to higher standards for admission, but must meet at least the same requirements as resident freshman applicants.

## Regent Admission Index

Students from Iowa high schools planning to begin studies at an Iowa Regents institution must have a Regent Admission Index score of at least 245 and take the minimum number of required high school courses to qualify for automatic admission to Iowa State University, the University of Northern Iowa, and The University of Iowa. Students who achieve a score less than 245 will be considered for admission on an individual basis.

The index combines four factors that strongly predict success at regent universities: ACT or SAT test score, high school rank, high school cumulative grade-point average, and the number of completed high school core courses (which include only the courses listed below). **Information you will need to complete your RAI Score:**

**\*Note: There is an RAI calculator available at: [www.regents.iowa.gov/RAI/index.html](http://www.regents.iowa.gov/RAI/index.html)** (cap sensitive)

Your ACT or SAT score: \_\_\_\_\_ Your Current Cumulative GPA: \_\_\_\_\_

In the RAI Calculation, the number of core courses you enter should include courses that you have successfully completed. A year-long course is worth 1 unit and a semester course is worth one-half (.5) unit as you calculate core units to enter into the RAI calculation. \* Any class marked by an asterisk is a semester-long course.

## MISCELLANEOUS

- **DRIVER'S EDUCATION**

The Mount Vernon Community School District does not sponsor a summer driver's education program. Instead, private companies offer driver's education programs in Mount Vernon. They offer comparable services and costs at convenient times to all families. Reduced driver's education fees are available for students who qualify through federal free/reduced lunch guidelines. These families may contact the high school office for more information. The private companies will advertise their programs and work directly with the school district to provide the reduced fees. As a reminder, all students must possess a driving permit before starting in a driver's education program. If you have any questions regarding driver's education, please contact the High School office at 895-8843.

- **INDEPENDENT STUDY**

Independent study may be available on a limited basis by approval of the principal. Advanced students should consider enrolling in Post Secondary Enrollment Option (PSEO) courses or online Advanced Placement courses as an alternate to applying for independent study course work. **A written plan of study must be approved by the instructor and principal prior to beginning an independent study course.**

## Art Classes

- **DIGITAL PHOTOGRAPHY 1 - .5 credit**  
**GRADES 9-12 ONE SEMESTER COURSE**  
**NO PREREQUISITES**

During this course students will learn and practice skills in taking photographs with a digital camera. Students will learn to transfer and manipulate photographs with Adobe Photoshop Elements/CS6, PIXLR, iPhoto, and iMovie. Students will be working on landscape photography, architectural photography, portrait photography, stop motion, and sculptural photography.

- **ADVANCED DIGITAL PHOTOGRAPHY - .5 credit**  
**GRADES 10-12 ONE SEMESTER COURSE**  
**PREREQUISITES: PHOTOGRAPHY 1 or PERMISSION OF INSTRUCTOR**

During this course students will continue to practice skills in taking photographs using digital camera or a 35mm analog camera. Students will have the option of using darkroom technology (there is a \$50.00 fee accompanied with this choice). Students will learn to transfer and manipulate photographs with PIXLR, Adobe Photoshop Elements/CS6, iPhoto, and iMovie. Students will be working on individual projects that are consistent in subject matter.

- **CERAMICS - .5 credit**  
**GRADES 9-12 ONE SEMESTER COURSE**  
**NO PREREQUISITES**

Students will learn a variety of hand-building techniques for creating functional and sculptural ceramics. Students will learn basic skills for throwing on the potter's wheel. Historical and cultural examples will be studied for ideas and techniques. Examples of units include self portrait jars, teapots, sculptures, 3-dimensional masterpieces, tiles, and masks. Students must pay a material's fee of \$10.00.

- **CERAMICS 2 (repeatable course) - .5 credit**  
**GRADES 9-12 ONE SEMESTER COURSE**  
**PREREQUISITE: CERAMICS**

During this course students will continue to learn about different clay bodies, glazes, under glazes, the operation of the kiln, and firing techniques. Each student will have the opportunity to learn how to use the throwing wheel and learn techniques for creating cups, bowls, plates, platters, tea pots, vases, pitchers, and cylinders. Students will also learn about historical and contemporary ceramics. Students must pay a material's fee of \$10.00.
- **BEGINNING DRAWING - .5 credit**  
**GRADES 9-12 ONE SEMESTER COURSE**  
**NO PREREQUISITES**

In beginning drawing, students will learn and practice visual and technical skills to improve their ability to draw. Students will develop a body of work that represents their creative vision. Students will work with a variety of drawing materials including charcoal, ebony pencils, colored pencils, oil crayons, and chalk pastels.
- **BEGINNING PAINTING - .5 credit**  
**GRADES 9-12 ONE SEMESTER COURSE**  
**PREREQUISITE: BEGINNING DRAWING or PERMISSION OF INSTRUCTOR**

Students will learn beginning painting skills using watercolor and tempera paints. Examples of instructional units are landscape, still life, figure drawing, self portrait, perspective, and dream drawings. Students are required to draw in a sketchbook outside of class. Grades are based on participation and individual improvement of drawing and painting skills.
- **ADVANCED DRAWING AND PAINTING (repeatable course) - .5 credit**  
**GRADES 10-12 ONE SEMESTER COURSE**  
**PREREQUISITE: BEGINNING DRAWING AND BEGINNING PAINTING / CONSENT OF INSTRUCTOR**

Students will continue to practice and develop visual and technical skills working with a variety of drawing and painting media. Acrylic paints will be introduced. Composition and color/color mixing will be emphasized through units that may include: still life, abstraction, figure, portrait, landscape and work from imagination. Students will keep a sketchbook and provide some materials for this class. Grading will emphasize individual participation, improvement, and completion of a final portfolio of drawings and paintings.
- **PRINTMAKING (repeatable course) - .5 credit**  
**GRADES 9-12 ONE SEMESTER COURSE**  
**NO PREREQUISITES**

In this course students will learn the process of creating prints on paper using linoleum, woodcut, and screen print. The objective of this course is to provide students with the skills necessary to safely execute, present and evaluate selected examples of relief and screen prints, using a variety of materials, tools and techniques. Students must pay a material's fee of \$10.00.
- **SCULPTURE (repeatable course) - .5 credit**  
**GRADES 9-12 ONE SEMESTER COURSE**  
**NO PREREQUISITES**

Students will learn different techniques for building three-dimensional works of art. Instructional lessons may include clay, paper, paper mache, plaster, wire, found objects, cardboard, concrete, and wood. Historical and cultural examples will be studied and discussed as inspiration for creative ideas and technical modeling. Grades are based upon creativity and skill development.

## Available Classes

- **FINANCIAL LITERACY - .5 credit**  
**GRADES 11-12 ONE SEMESTER COURSE** (graduation requirement)  
**NO PREREQUISITES**  
This course introduces students to money management and personal financial tasks that students will use in everyday life. Students will learn how to earn money through career search and method of payments, manage money through banking and budgeting, make money grow through investments such as stocks and bonds, make sound purchasing decisions, and be a responsible user of credit. Community and business involvement, including guest speakers and field trips will provide support to students as well as foster positive relationships in the community. This course relies heavily on project based assessment allowing students to demonstrate their ability to apply, analyze and synthesize what they are learning.
- **EARLY BIRD FINANCIAL LITERACY - .5 credit**  
**GRADES 11-12 EVERY OTHER DAY, YEAR-LONG**  
**NO PREREQUISITES**  
Same as above except will meet every other day all year long during the early bird period. Transportation to early bird classes is the responsibility of the student.
- **ECONOMICS - .5 credit**  
**GRADES 11-12 ONE SEMESTER COURSE**  
**NO PREREQUISITES**  
Students will study contemporary economics. In contemporary economics, students will study how people attempt to satisfy unlimited wants with limited resources. The trade-offs and opportunity cost of these economic decisions, and the role of government will be examined. Fiscal policy, supply and demand, economic reasoning, business cycle, gross domestic product, unemployment, economic development and inflation will be studied.
- **ACCOUNTING I - .5 credit**  
**GRADES 9-12 ONE SEMESTER COURSE**  
**NO PREREQUISITES**  
This class is designed for students desiring entry level preparation for careers in business and is highly recommended for students seeking further accounting study at the collegiate level. Emphasis is on the understanding of basic accounting concepts for a sole proprietorship (a business owned by one person). The class will take the student through an entire accounting cycle for a sole proprietorship. QuickBooks Accounting software will be used to accentuate accounting fundamentals.

- **ACCOUNTING II - .5 credit**  
**GRADES 9-12 ONE SEMESTER COURSE**  
**PREREQUISITE: ACCOUNTING I**

This class is a continuation of the content learned in Accounting I. The emphasis is on the understanding of basic accounting concepts for a partnership (a business owned and operated by two or more people). The class will take the student through and entire accounting cycle for a partnership. QuickBooks Accounting software will be used to accentuate accounting fundamentals.
- **COMPUTER BUSINESS APPLICATIONS 1 - .5 credit**  
**GRADES 9-12 ONE SEMESTER COURSE**  
**NO PREREQUISITES**

This course is an introduction to and a fundamental mastery of the four basic business software applications: Word Processing, Spreadsheets, Presentations, and Databases. Microsoft Office 2010 will be used throughout the course with Microsoft Word, Microsoft Excel, Microsoft PowerPoint, and Microsoft Access. There will be some work with alternative open source software like OpenOffice, LibreOffice, and certain online presentation sites like prezi.com as well. The final unit will have to do with simple video editing using Windows MovieMaker / iMovie software.
- **INFORMATION TECHNOLOGY ESSENTIALS - .5 credit**  
**GRADES 9 – 12 ONE SEMESTER COURSE**  
**NO PREREQUISITES**

This introductory computer course provides students with a survey of several areas within the information technology field. The course is made up of units that examine each of the following topics: careers in information technology, ethics and technology, computer hardware, computer operating systems, software applications, programming, and networking.
- **ENTREPRENEURSHIP - .5 credit**  
**GRADES 9-12 ONE SEMESTER COURSE**  
**NO PREREQUISITES**

Students will learn about what it takes to own and operate a business. In the first half of the class, the students will learn about business concepts and create a business plan for a “start-up business.” This plan will then be presented to potential community investors and school administrators. In the second half, the students will idea-generate a business that the class will own and operate. Students will create a business name and logo, write a mission statement, develop a product or service, create a management team, develop a marketing/advertising campaign, staff the business, find financing, and hopefully successfully navigate the ups and downs of running a business. All profits from the student-run business will be donated to a charity of the class’s choosing.
- **FUNDAMENTALS OF WEB PROGRAMMING – .5 / dual credit with KCC**  
**GRADES 11-12 ONE SEMESTER COURSE**  
**NO PREREQUISITES**

Fundamentals of Web Programming presents hypertext markup language (HTML) and cascading style sheets (CSS) for encoding and creating Web pages. The class introduces Server Side Includes and simple JavaScript for enhancing those Web pages. Web programming emphasizes a structured approach to page layout, coding and styling, exposing students to a variety of software tools. Web programming aims to teach students the real-world fundamentals of web page design and development.
- **theSTABLE (may take this class twice, both times for credit) - .5 Credit**  
**GRADES: 11-12 ONE SEMESTER COURSE**  
**PREREQUISITE: ENTREPRENEURSHIP or PERMISSION OF INSTRUCTOR**

Students will be involved in the continued development and operations of theSTABLE, a student-run business specializing in selling branded Mustang apparel and merchandise in conjunction with the Booster Club. Students should expect to spend their time focused on market planning, marketing research, product/service management, promotion, pricing, merchandising, selling, distribution, and financial analysis. Skills needed to be successful include: creative and logical thinking, willingness to work as a team, effective communication, ethical behavior and professional demeanor when working with customers and investors.

\*\*This class has a work component built-in and may require students to work outside of normal instructional time.

## ADDITIONAL ELECTIVE COURSES

- **PUBLICATION/ DESIGN (YEARBOOK) – 1.0 credit**  
**GRADES 9-12 YEAR LONG COURSE**  
**NO PREREQUISITES**

### **ALL YEARBOOK EDITORS MUST ENROLL IN THIS COURSE**

This class is for dedicated, responsible students who pay attention to details. Its focus is on real-life skills of computer design, news writing, advertising, budgeting, and meeting deadlines. Students will learn to use current technology, taking pictures with a digital camera and using InDesign computer layout software to design yearbook pages. Yearbook staff (i.e. editor-in-chief, sports editor, photographer, student life reporter) must enroll in this class. Students who enroll in this course must dedicate themselves to the full year of study and must be able to be trusted with valuable equipment and important files.

## ENGLISH/LANGUAGE ARTS DEPARTMENT

### ENGLISH/LANGUAGE ARTS CAREER OPPORTUNITIES

Advertising Agent	Journalist	Reporter
Auctioneer	Lawyer and Paralegal	Retail Manager
Book Store Manager	Lecturer	Salesperson

FAX Operator	Public Relations Agent	Travel Agent/Guide
Film, TV, Stage Performer	Publicist	Typist
Government Service	Radio & TV Announcer	Word Processor Operator
Insurance Agent	Receptionist	Writer

## English Required Courses

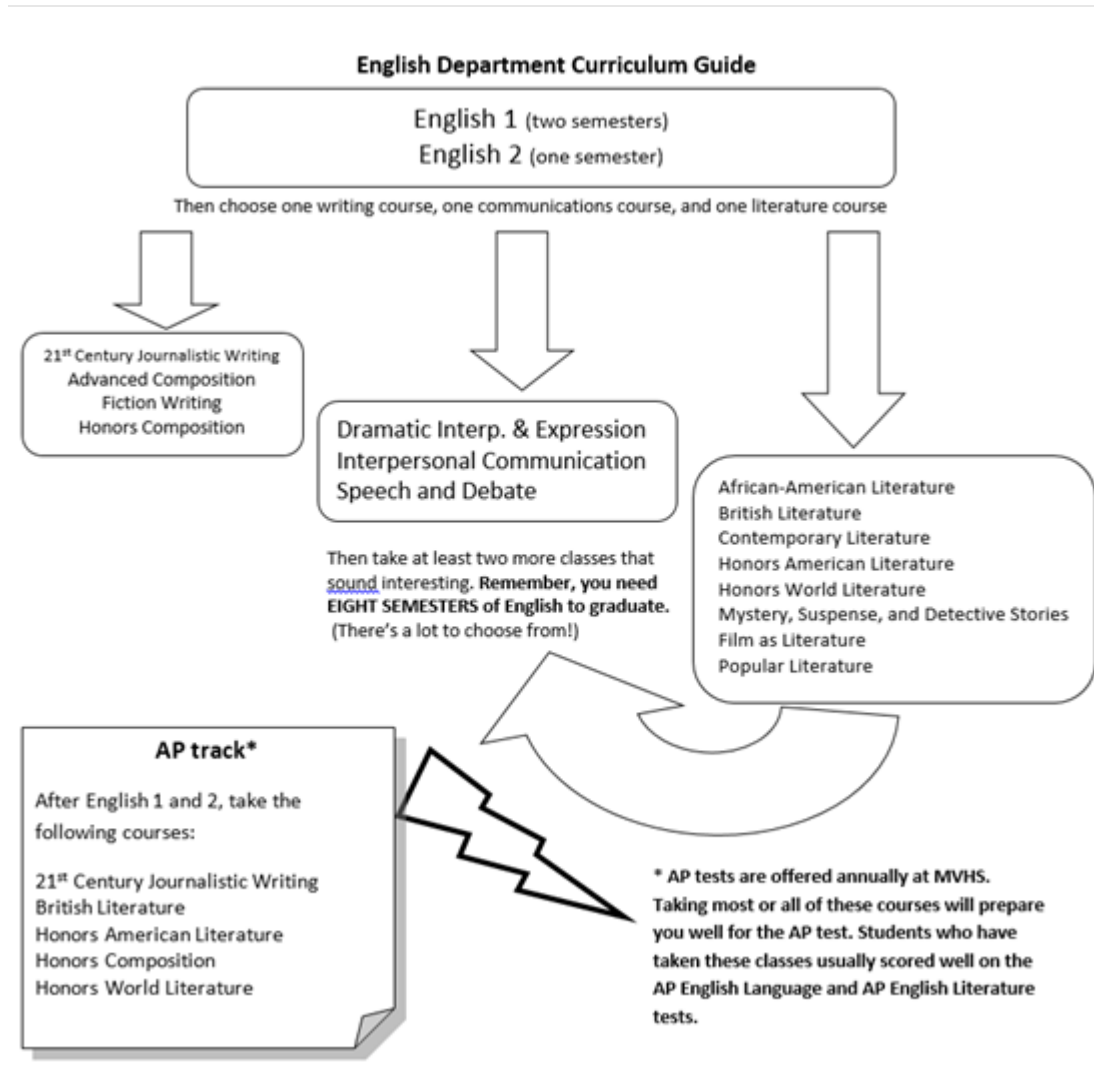

- **ENGLISH 1 – 1.0 credit**  
**GRADE 9 YEAR LONG COURSE**  
**NO PREREQUISITES**

This course prepares ninth graders for high school reading, writing, and speaking. Reading includes all major literary genres; writing is both expository and creative and includes work on usage, grammar, spelling, and vocabulary; speaking involves dramatic interpretation, pantomime, and expository address. Beginning poetry and classical literature through film are part of the curriculum. A beginning research paper is required. Romeo and Juliet, Of Mice and Men, and Lord of the Flies are among the works read.

- ENGLISH 2 – .5 credit**  
**GRADE 10 ONE SEMESTER COURSE**  
**PREREQUISITE: ENGLISH 1**

(1st or 2nd SEMESTER)

English 2 is the final semester of the required core English requirement and includes the study of literature, writing, speaking, and usage. Students will study short stories, novels, plays, poems, and essays. Expository writing and creative writings are integrated with reading, and a research project is required. Catcher in the Rye, To Kill a Mockingbird, and Shakespearean drama are major units.

**Plan ahead:**

Work with your parents, teachers, and the guidance department to pick classes that are the **best fit for YOU**. Some classes are only offered in specific semesters, so make sure to ask questions. Honors classes are only open to juniors and seniors, except for Honors Composition, which is only open for seniors. ***The next step is to have your current English teacher sign off on your choices prior to registration.***

# English Elective Courses

The English courses listed below are open to sophomores, juniors, and seniors unless otherwise noted. Students must take at least five (5) semesters of English electives as a requirement for graduation from MVHS. In addition, the English Department requires that students enroll in at least one elective in each of the major areas: literature, speech/communication, and writing. College bound students should also be aware of the requirements for entrance into the college they are considering when planning their high school schedules. Students must confer with a department member before selecting their English courses for future semesters.

Students whose writing is below standard level as determined by their English 1 and English 2 writing are strongly encouraged to enroll in one semester of Fiction Writing. The writing process is an integral part of the writing done in all classes. Students should expect to meet the writing requirement in all English elective courses by sharing their writing with other students at various stages of the writing process.

Outside reading is required in most literature courses because reading is the basis of all language skills. Verbal class participation is also very important in all English classes. Therefore, regular attendance in class plays a key role in a student's success in the learning process. Orally questioning, arguing, or reiterating literary themes usually results in a higher level of achievement. Reading, writing, listening, viewing, and speaking are important components of our English curriculum.

- **FICTION WRITING - .5 credit**  
**GRADES 10-12 ONE SEMESTER COURSE**  
**NO PREREQUISITES**

This class emphasizes the composition of short fiction with instruction to guide the student through the composition process. Activities provide a laboratory experience in which students write daily. Although composition is an independent activity, peer editing, class discussion, and teacher conferences provide feedback to the writer. Short fiction published in current literary magazines as well as contemporary classics and recent student work will be studied as models. For students who enjoy writing, this class provides an outlet for expression; at the same time it attempts to expose them to the complexities of contemporary fiction writing.

- **ADVANCED COMPOSITION - .5 credit**  
**GRADES 10-12 ONE SEMESTER COURSE**  
**NO PREREQUISITES**

The purpose of this class is to improve the reading and writing skills of students as they learn the technical elements of a variety of literary genres. Specifically, students will be studying these four styles of writing: technical writing (business letters, resumes, interviews and explanatory writing); news writing (news stories, reviews, interviews, critiques and editorials); creative writing (poetry, short stories, personal narratives); and essay writing (persuasive research paper and literary analysis).

- **21<sup>ST</sup> CENTURY JOURNALISTIC WRITING - .5 credit**  
**GRADES 10-12 ONE SEMESTER COURSE**  
**NO PREREQUISITES**

21st Century Journalistic Writing will engage students in discussion of opinion vs. fact, interviewing skills, choosing an angle, ethics, law, and the history of journalism. Students will work with media skills of posting stories online, designing spreads with In-Design, editing digital photos, and videos/slideshows. The course will cover different news writing styles such as inverted pyramid, feature writing, investigative reporting, and opinion writing. Students will be encouraged to publish their work online or in print.

- **HONORS COMPOSITION - .5 credits**  
**GRADE 12 ONE SEMESTER COURSE**  
**NO PREREQUISITES**

A college prep composition course that familiarizes students with college writing requirements and encourages them to develop writing techniques that work best for them. Emphasis is on developing a repertoire of writing structures and on improving individual writing skills. The goal is to give students fluency and familiarity with the types of writing they may encounter in college work. High standards of correctness and time management are expected and necessary. Students will share their writing with each other, primarily in the editing process.

- **SPEECH and DEBATE - .5 credit**  
**GRADES 10-12 ONE SEMESTER COURSE**  
**NO PREREQUISITES**

Speech and Debate is a course for students who want to learn to think clearly and express themselves effectively before an audience. Students are provided opportunities to increase their fluency as a speaker and develop self-confidence. The course covers multiple aspects of public speaking and communication literacy, giving students background knowledge through readings/lectures and practical experience through participation. Speech and Debate introduces students to a study of poise, use of body and voice, public speaking, argumentation/debate, and oral interpretation of literature through units including personal experience, exposition, persuasion, special occasion speeches, Lincoln-Douglas debate, Public Forum debate, and student congress.

- **INTERPERSONAL COMMUNICATION - .5 credit**  
**GRADES 10-12 ONE SEMESTER COURSE**  
**NO PREREQUISITES**

This course will serve as an introduction to the principles of effective communication. Students will learn to communicate more effectively and improve relationships through the study of the communication cycle, modes of communication (including written, verbal, nonverbal, and mass media), personal perception, gender differences, and conflict resolution. Students will analyze the different styles and uses of communication in business, social, formal, and informal situations. Students will also explore the benefits and liabilities (including ethical and legal issues) of social media. Students will reflect on personal communication strengths and style through a cumulative portfolio project. IPC meets the English department communication requirement.

- **DRAMATIC INTERPRETATION AND EXPRESSION - .5 credit**  
**GRADES 10-12 ONE SEMESTER COURSE**  
**NO PREREQUISITES**

This course is a study of drama/plays from the Greek to contemporary theater. It is also a collaborative class where students create, perform in, and direct their own improvisational show for their peers in the high school. Students will learn about the role and contribution of each of the major participants in theater--the actor, the playwright, director, designer, and audience. The student will explore ways of bringing drama from the page to the stage, emphasizing equally the literary and theatrical qualities of play texts and individual expression. Students will be encouraged to read and experience plays from both an academic and theatrical point of view. Attendance at an outside professional theatrical performance during the semester is required. Curriculum will include: research topics in theater history; dramatic activities; creative writing activities such as scene writing, parody and satire; and the performance of a final monologue. (Previous experience in theatre activities is not required).

- **AFRICAN AMERICAN LITERATURE - .5 credit**  
**GRADES 10-12 ONE SEMESTER COURSE**  
**NO PREREQUISITES**

In this course, students will read, analyze, and discuss literary works in various forms and media written by African Americans. We will study texts from a variety of time periods and locations in order to better understand the collective voices of African American writers, film makers, and artists. We will also use the works to examine what it means to be a person of color, and how the term African American struggles to encompass all people of color. Finally, we compare these works with the current climate of social justice. Students will be asked to speak, listen, read, and write in order to share their ideas.

- **BRITISH LITERATURE - .5 credit**  
**GRADES 10-12 ONE SEMESTER COURSE**

## **NO PREREQUISITES**

This college prep literature course will give students a solid background in the British canon, focusing primarily on works from the 17th-19th centuries. Students will read, at minimum, Beowulf, Shakespeare's Macbeth and/or Hamlet, works of premier British poets, Chaucer's Canterbury Tales, and a major British novel. Individual projects allow students opportunities to select authors or subjects of personal interest. Class discussion, exams, and essay writing are central to the course. This course is highly recommended for students headed for four-year college programs.

- **CONTEMPORARY LITERATURE - .5 credit**  
**GRADES 10-12 ONE SEMESTER COURSE**  
**NO PREREQUISITES**

This course gives students the opportunity to read 20th century novels, plays, short stories, and poetry. The largest part of the literature is American. Class discussions and writing are paramount to success in the course. Writing is frequent and is done both in class and as take-home assignments. Individual reading in addition to shared class reading is expected and necessary. Strongly recommended, but not required, as a prerequisite to Honors American Literature.

- **POPULAR LITERATURE - .5 credit**  
**GRADES 10-12 ONE SEMESTER COURSE**  
**PREREQUISITE: TEACHER APPROVAL**

This general English class allows students a chance to participate in and succeed in a literature course based on writings of high interest to high school-aged students. The reading will be individually chosen based primarily upon the student's own preferences, except for two books that will be read as a class. Writing will consist of both daily and weekly journaling as well as book reports.

- **MYSTERY, SUSPENSE, AND DETECTIVE STORIES - .5 credit**  
**GRADES 10-12 ONE SEMESTER COURSE**  
**NO PREREQUISITES**

This course is a study in the conventions of a mystery and its development as a genre of literature. Students will study short stories by early detective story authors such as Edgar Allen Poe and Arthur Conan Doyle. Students will continue with short stories and films from "The Golden Age" of detective stories and the "hardboiled" school of writing. The true crime book Catch Me If You Can by Frank Abagnale and mystery novel Hold Tight by Harlan Coben are two of the popular books read.

- **FILM AS LITERATURE - .5 credit**  
**GRADES 10-12 ONE SEMESTER COURSE**  
**NO PREREQUISITES**

One definition of literature is "the stories in which we see ourselves reflected and find meaning in that reflection." Film has become this literature for most Americans. This class will view, discuss, and write about films. Sometimes students will read the books which inspired the film and give speeches about them. Thus, the course will use a popular art form to practice writing, reading, and speaking while increasing awareness of film techniques and of the history and cultures the films recreate. Some adult themes are studied. Typical units include: History of Film-The Silent and the Oldies; Film Language and Style; Film Noir; Major Directors past and present; Morals of Society as portrayed through film; Science Fiction; Heroes; Academy Awards.

- **HONORS AMERICAN LITERATURE - .5 credit**  
**GRADES 11-12 ONE SEMESTER COURSE**  
**NO PREREQUISITES**

A college prep English course that attempts to give students a sense of richness and variety in American Literature, an awareness of its historical development and identifying characteristics with a focus on 19th century American literature, authors, and prominent themes of that literary period. The hope is that students will discover how much pleasure is waiting for them in further reading of the literature of their own country. Concentration is given to major writers and prevalent ideas. Activities are built around the reading. Exams are designed to help make the step to college an easier one with few surprises for the student in required college literature courses. Some authors and novels studied include: The Adventures of Huckleberry Finn; The Scarlet Letter; Walden, and Tennessee Williams' plays. This course is highly recommended for students seeking a four-year college program. Writing is intensive in this course.

- **HONORS WORLD LITERATURE - .5 credit**  
**GRADES 11-12 ONE SEMESTER COURSE**  
**NO PREREQUISITES**

This course will cover classic literature from a wide array of cultures, but focus primarily on the Western cultures. Much of the reading and subsequent literary analyses will be centered thematically around common human problems and experiences as portrayed in poetry, particularly drama, and some fiction. Students will also work with creation stories and mythology. The longer works will include some or all of the following: Gilgamesh, Camus' The Stranger, Khafka's Metamorphosis, and Tolstoy's The Death of Ivan Ilyich. Essay writing will be practiced regularly, and exams will be given at midterm and semester. Students will be involved in a major research project of one well-known author of their choice during this course.

Professional Athlete  
Public Administration  
Public Health Educator  
Public Health Engineer  
Public Health Statistician  
Health Club Manager

Recreation Leader  
Sanitary Engineer  
School Nurse  
Social Worker  
Speech Health Pathologist  
Sports Writer or Editor  
Swimming Instructor  
Teacher  
Umpire  
Veterinarian  
Virologist  
X-Ray Technician

# Available Classes

- **CHILD DEVELOPMENT - .5 credit**  
**GRADES 9-12 ONE SEMESTER COURSE**  
**NO PREREQUISITES**

This course is a study of human development as it affects the family and individual child. Pregnancy and birth will be covered along with wearing the empathy belly during class while experiencing everyday activities. Teen pregnancy will be covered along with prevention. We will cover care of an infant through age 12 focusing on emotional, social, physical and mental development. Crisis topics including death, divorce, illness, child abuse, birth defects, and disabilities will be dealt with from a child's and parent's point of view. Also "Baby Think It Over" will be taken home for one night minimum unless other arrangements are made for an alternative assignment.

- **INTERIOR DESIGN - .5 credit**  
**GRADES 9-12 ONE SEMESTER COURSE**  
**NO PREREQUISITES**

This course provides an opportunity to acquire and apply skills in decorating and designing a home. Emphasis is placed on elements and principles of design along with color schemes. Other topics include background decorations—floors, wall and window treatments; furniture selection and styling; furniture arrangements; and creative use of accessories. Learning experiences will include various classroom projects, a repurpose project, viewing housing and looking at landscapes. Scaled floor plans for individual rooms and a house will be drawn and evaluated, considering clearance space and traffic flow. Ecofriendly, new design trends, historical houses and business design will also be talked about.

- **FOODS AND NUTRITION I - .5 credit**  
**GRADES 9-12 ONE SEMESTER COURSE**  
**NO PREREQUISITES**

This course is designed for those students with little or no previous experience in food preparation. A basic study of nutrition is included in this course. It also provides an opportunity to learn and apply basic skills and principals involved in planning, preparing, and serving simple nutritious meals. A variety of foods are prepared including quick breads, yeast breads, soups, vegetables, casseroles, beef, pork, poultry, pies, cakes, modified recipes, cookies, fruits, and candies. The final project is a group meal where each cooking group makes a meal and sits down to eat it with proper table setting and manners.

- **MENU PLANNING AND NUTRITION - .5 credit dual credit with KCC**  
**GRADES 11-12 ONE SEMESTER COURSE**  
**PREREQUISITE: FOODS AND NUTRITION I**

This course is designed to further the knowledge and skills acquired in Foods and Nutrition I. The first quarter is focused on nutrition. The second quarter is focused on creating and planning a menu. Class experiences include: menu analysis, menu planning, creating different types of menus, food budgeting, understanding nutritional needs, nutrient content, digestion, allergies, diabetes, vegetarian diets, analyzing fad diets, what is a healthy diet and nutritious cooking.

- **SEWING 1 - .5 credit**  
**GRADES 9-12 ONE SEMESTER COURSE**  
**NO PREREQUISITES**

This is an individualized class for the student who is interested in any aspect of sewing. First, students learn basic sewing skills and continue to learn sewing techniques as they sew various projects. Students will take a field trip to a fabric store where they will pick out their first project supplies and purchase them themselves. The first project is a sewing project from a pattern or instructions. Students will also remake an existing clothing piece into a new sewing idea. We will sew a community service project for a local organization and sew for a holiday or season. There will be teacher posted projects and student picked projects in the class. A

student who knows how to knit, crochet, or cross stitch may do this as a project for the class. Students can buy their own supplies or use donated items available within the classroom.

- **SEWING 2 - .5 credit**  
**GRADES 9-12 ONE SEMESTER COURSE**  
**PREREQUISITES: SEWING 1**

This course is designed to further your experience in sewing. Each student will work on individual projects following a class project calendar. Various projects include a teacher given starter project to brush up on sewing skills, instruction or pattern project, clothing project, project of choice, mini sewing projects, holiday/seasonal project, re-structure project, community service project and a final project.

- **ADULT LIVING - .5 credit**  
**GRADES 10-12 ONE SEMESTER COURSE**  
**NO PREREQUISITES**

This class prepares students for everyday life and helps them prepare for living on their own. Course content includes: self-esteem, stereotypes, relationships, teen pregnancy, STD's, dating, marriage, family meals, meals on a budget, babies, kids, fun kid snacks, party planning, budgeting, laundry, mending, nutrition and many other topics related to everyday living. Students are encouraged to suggest their own topics of interest.

## INDUSTRIAL TECHNOLOGY DEPARTMENT

### INDUSTRIAL TECHNOLOGY CAREER OPPORTUNITIES

Aircraft Mechanic  
Architectural Drafting  
Auto Mechanic  
Auto-body and Fender Repair  
C.A.D. Drafter  
Cabinet Maker  
Cable Television Installer  
Cable Television Line Tech  
Carpenter  
Computer Repair Technician  
Diesel Mechanic  
Electrical Drafting  
Electrician  
Electrician Helper  
Electronics Engineer  
Engineer Aide  
Equipment Rental Manager  
Farm Equipment Mechanic  
Farmer

Forest Manager  
Forester  
Foundry Worker  
Furniture Maker  
Gunsmith  
Hardware Store Worker  
House Design/Building Contractor  
Industrial Manufacturing Engineer  
Industrial Technology Teacher  
Interior Designer  
Jewelry Maker  
Job Training Counselor  
Log Grader  
Log Sawyer  
Logger  
Lumber Broker  
Lumber Grader  
Lumber Yard Worker  
Machinist

Mechanic Maintenance  
Mechanical Drafting  
Mechan Drawing Instructor  
Mechanical Engineer  
Model Builder  
Paint Store Manager  
Plant Operator  
Plumber  
Power Plant Mechanic  
Service Station Attendance  
Sheet Metal Worker  
Stained Glass Maker  
Tool Designer  
Toy Maker  
Welder  
Wood Pattern maker  
Wood Turner

# Available Classes

- **PLTW: INTRO TO ENGINEERING DESIGN – 1.0 credit / dual credit with KCC**  
**GRADES 9-12 YEAR-LONG COURSE**  
**PREREQUISITES: ALGEBRA 1 OR CURRENTLY ENROLLED IN ALGEBRA 1**  
This course introduces students to a variety of careers in engineering and technology. Students will study technology systems and manufacturing processes. Students will experience how engineers and technicians use math, science, and technology within an engineering problem-solving process. Students will use state-of-art design software to apply learned skills to real world engineering and manufacturing problems. Note: Students should bring a 1.5" three ring binder for class.
- **PLTW: PRINCIPLES OF ENGINEERING – 1.0 credit / dual credit with KCC (2018-2019)**  
**GRADES 9-12 YEAR-LONG COURSE**  
**PREREQUISITES: ALGEBRA 1**  
Students explore the wide variety of careers in engineering and technology. They explore various technology systems and processes. Using activities, projects, and problems, students learn first-hand how engineers and technicians use math, science, and technology in an engineering problem-solving process to benefit people. The course also addresses concerns about social and political consequences of technological change.
- **PLTW: CIVIL ENGINEERING AND ARCHITECTURE – 1.0 credit / dual with KCC (2017-2018)**  
**GRADES 9-12 YEAR-LONG COURSE**  
**NO PREREQUISITES**  
In this class students will study the design and construction of residential and commercial building projects. The course includes an introduction to many of the varied factors involved in building design and construction including building components and systems, structural design, storm water management, site design, utilities and services, cost estimation, energy efficiency, and careers in the design and construction industry. Civil Engineering and Architecture is a high school level course that is appropriate for 10th or 11th grade students interested in careers related to civil engineering and architecture. Other than their concurrent enrollment in college preparatory mathematics and science courses, this course assumes no previous knowledge.
- **ARCHITECTURAL PLANS AND SPECIFICATIONS – 0.5 credit / dual credit with KCC (2018-2019)**  
**GRADES 9-12 ONE SEMESTER COURSE**  
**NO PREREQUISITES – Fundamentals of Drafting recommended**  
This course introduces the skills and methods for understanding and interpreting construction drawings and technical specifications for residential and commercial buildings. Students will use construction blueprints, both in hand and online, to display a working knowledge of this form of graphic communication.
- **COMPUTER AIDED DRAFTING - .5 credit (2018-2019)**  
**GRADES 9-12 ONE SEMESTER COURSE**  
**NO PREREQUISITES**  
Students in this class will develop knowledge and skills to communicate graphically with engineers, architects, CNC operators, machinists, builders, and other production workers. Emphasis will be placed on drafting vocabulary and processes. Coursework will include class discussion and lessons from written sources, but will focus on production of workable CAD drawings for a variety of production applications. Instruction and projects will progress from simple drawings to complex 3D modeling and architectural drawings using Autodesk CAD, Autodesk Inventor, and Autodesk Revit. By the end of this class students should be able to produce drawings detailed and accurate enough to guide actual production.

- **INTRODUCTION TO INDUSTRIAL TECHNOLOGY - .5 credit**  
**GRADES 9-12 ONE SEMESTER COURSE**  
**NO PREREQUISITES**

This survey course allows students to sample architecture and construction, manufacturing, STEM, and power and energy career cluster areas. Classroom discussion, workshop demonstrations, and hands-on activities will be completed that cover all course areas offered.

- **EXPLORING INDUSTRIAL TECH – 0.5 credit**  
**GRADES 9-12 GIRLS ONLY ONE SEMESTER COURSE**  
**NO PREREQUISITES**

This class will introduce female students to a wide range of ideas and skills that exist as part of the skilled trades. This introduction will focus on practical knowledge and skills that we believe all students, young men and young women alike, should have as well-informed citizens preparing to live on their own. This course will focus on hands-on lab work and experiences and the planning needed to carry them out. We believe the young women who take this course will have a new-found confidence in their ability to understand and accomplish tasks they once knew little about. Examples of potential topics follows, but this class is not limited to those listed:

- \*Changing the oil in your car.
- \*Changing your car tire.
- \*Changing a bad light switch.
- \*How to change a light fixture
- \*How to change a sink fixture.
- \*How to set a toilet.
- \*How to build small projects from wood.
- \*How to repair metal by welding.
- \*How to design a new kitchen or bathroom.
- \*How to hire a contractor.

- **POWER TECHNOLOGY - .5 credit**  
**GRADES 9-12 ONE SEMESTER COURSE**  
**NO PREREQUISITES**

This course is an introduction in small engine repair. Areas covered will include: occupations, safety, tools, engine identification and inspection, basic engine principles and design, basic electricity, ignition systems, lubrication systems, cooling systems, fuel systems, governor systems, troubleshooting, principles of operation of the four cycle engine, and principles of operation of the two-cycle engine.

- **AUTO MECHANICS - .5 credit**  
**GRADES 9-12 ONE SEMESTER COURSE**  
**NO PREREQUISITES**

The auto mechanics course is a study of the different systems of the automobile. Areas covered will be safety, tools, lubrication system, cooling system, fuel system, electrical system, ignition, computerized fuel and ignition systems, transmission, brake system, and careers in auto mechanics. Activities will consist of individual assignments using the equipment in the auto mechanics area.

- **ELECTRICITY AND PLUMBING - .5 credit**  
**GRADES 9-12 ONE SEMESTER COURSE**  
**NO PREREQUISITES**

This course studies the fundamentals of electrical circuits and plumbing systems. Areas covered will include the principles of electricity, using meters, basic electronic circuits, A.C. circuit design, and plumbing.

- **MATERIALS PROCESSING - .5 credit**  
**GRADES 9-12 ONE SEMESTER COURSE**  
**NO PREREQUISITES**

This course is designed to teach skills necessary for basic woodworking and carpentry applications. Specific and safe use of a wide variety of power equipment is stressed through demonstration and testing. Students will also learn basic skills in proper material use, joinery, process planning, estimating, and finishing.

Coursework includes academic and classroom work, but is focused on producing good projects in the lab. Students will benefit from being self-motivated, paying attention to detail, and having a desire to produce quality products. It is possible that students will be planning personal project(s) that they will take home with them. There is a fee equal to the cost of such projects, unless exception has been obtained from instructor or administration.

- **ADVANCED MATERIALS PROCESSING - .5 credit**  
**GRADES 9-12 ONE SEMESTER COURSE (repeatable one time with instructor permission)**  
**PREREQUISITES: MATERIALS PROCESSING or WOOD FAB**  
An extension of Materials Processing, this course focuses on woodworking and carpentry skills at the next level. Specific and safe use of already introduced power equipment is reviewed and more specialized equipment is introduced. Coursework can include classroom work including discussions and testing, but is centered on planning and executing the building of a quality project(s). The expectation is that the projects of students in this class will involve the same areas of emphasis with higher level skills and more detailed planning than in the introductory class. All students will benefit from being self-motivated, paying attention to detail, and having a desire to produce quality products. It is expected that students will be planning personal project(s) that they will take home with them. There is a fee equal to the cost of such projects, unless exception has been obtained from instructor or administration.
- **CONSTRUCTION TECHNOLOGIES – 0.5 credit**  
**GRADES 10-12 ONE SEMESTER COURSE (repeatable one time with instructor permission)**  
**PREREQUISITES: MATERIALS PROCESSING AND ADVANCED MATERIALS PROCESSING**  
Students will work to develop core residential construction skills. Safe operation of relevant hand and stationary power equipment is covered. Current residential construction materials, methods, and terminology are covered in classroom work and discussion, hands-on lab activities, and the building of small structures. This class focuses on general knowledge in a broad range of building systems and the coordination requirements between those systems. All students are expected to be self-motivated, pay attention to detail, and have a desire to produce quality products.
- **FLEXIBLE MANUFACTURING - .5 credit**  
**GRADES 9-12 ONE SEMESTER COURSE (repeatable one time with instructor permission)**  
**NO PREREQUISITES**  
Flexible Manufacturing provides the knowledge, skills, and technologies required for employment in metal technology systems. Students need to develop knowledge of the concepts and skills related to this system in order to apply them to personal and career development. Career and technical education supports integration of academic and technical knowledge and skills. Students must have opportunities to reinforce, apply, and transfer knowledge and skills to a variety of settings and problems. Knowledge about career opportunities, requirements, and expectations and the development of workplace skills prepare students for success.
- **RESIDENTIAL CONSTRUCTION LAB – 0.5 credit / dual credit with KCC**  
**\*\*Must be taken at Kirkwood Regional Center in Hiawatha**  
**GRADES 11-12 ONE SEMESTER COURSE**  
**PREREQUISITES: MATERIALS PROCESSING, ADV. MATERIALS PROCESSING, AND CONSTRUCTION TECHNOLOGIES**  
Students will apply prior knowledge of residential construction practices to hands-on modules and real-world projects. Projects will allow students to display skills that can be used for post-secondary employment or further education opportunities. Student will be expected to provide basic tools and safety glasses.
- **COMMERCIAL CONSTRUCTION LAB – 0.5 credit / dual credit with KCC**  
**\*\*Must be taken at Kirkwood Regional Center in Hiawatha**  
**GRADES 11-12 ONE SEMESTER COURSE**  
**PREREQUISITES: MATERIALS PROCESSING, ADV. MATERIALS PROCESSING, AND CONSTRUCTION TECHNOLOGIES**

Students will apply prior knowledge of commercial construction practices to hand-on modules and real-world projects. Projects will allow students to display skills that can be used for post-secondary employment or further education opportunities. Students will be expected to provide basic tools and safety glasses.

## MATHEMATICS DEPARTMENT

### MATHEMATICS CAREER OPPORTUNITIES

Accountant	Commercial Drafting	Insurance Salesperson
Actuary	Commercial Teacher	Machinist
Actuary Clerk Worker	Dental Technician	Mathematic Statistician
Airplane Pilot	Dentist	Mathematics Teacher
Architect	Development Tech Engineer	Navigation
Bank Cashier	Economist	Optometrist
Banker	Electrician	Plumber
Bookkeeper	Electronic Technician	Secretary
Broadcasting Tech	Engineer	Statistician
Carpenter	Forester	Surveyor
Chemist	Head Physician	Technician Analyst & Engineering

## Available Classes

*Entering 9<sup>th</sup> grade students MUST have a recommendation from the middle school Mathematics instructor to take Algebra Prep, Algebra, or Geometry.*

- **ALGEBRA PREPARATION – 1.0 credit**  
**GRADES 9-11 YEAR LONG COURSE**  
**PREREQUISITE: TEACHER RECOMMENDATION**  
This course provides students with an introduction to the concepts of algebra and geometry, and at the same time solidifies their grasp of arithmetic concepts and procedures. It is a mathematical connection for those students who intend to move on to algebra and geometry or who are exploring that possibility.
- **ALGEBRA 1 – 1.0 credit**  
**GRADES 9-12 YEAR LONG COURSE**  
**PREREQUISITES: ALGEBRA PREP and Teacher Recommendation**  
This course is organized around families of functions, with special emphasis on linear and quadratic functions. This course involves the rigorous study of mathematical algorithms and properties. It is intended for the capable mathematics student.
- **GEOMETRY – 1.0 credit**  
**GRADES 9-12 YEAR LONG COURSE**  
**PREREQUISITE: ALGEBRA 1 and Teacher Recommendation**  
Students will develop reasoning and problem solving skills as they study topics such as congruence and similarity, and apply properties of lines, triangles, quadrilaterals, and circles. Transformational and coordinate approaches to geometry are introduced. This course is recommended for college-bound students or those going into such trades as carpentry, surveying, construction, etc.

- **CONSUMER MATH – 1.0 credit**  
**GRADES 11-12 YEAR LONG COURSE**  
**PREREQUISITES: TWO FULL YEARS OF MATH COMPLETION**  
 The Consumer Math course is designed to provide practice with the type of math that is used in everyday life. Students solve problems involving income, banking, the use of insurance, buying and operating a car, renting or buying a home, income tax, etc.
- **ALGEBRA 2 – 1.0 credit**  
**GRADES 11-12 YEAR LONG COURSE**  
**PREREQUISITES: ALGEBRA 1 and GEOMETRY**  
 This course is a continuation of the study of algebraic concepts introduced in Algebra 1. The topics covered are similar to those covered in Honors Algebra 2 but at a slower pace. This course is designed to assist students in fulfilling a four-year mathematics requirement for a four-year college.
- **HONORS ALGEBRA 2 – 1.0 credit**  
**GRADES 10-12 YEAR LONG COURSE**  
**PREREQUISITES: ALGEBRA 1 and GEOMETRY (with Teacher Recommendation)**  
 This course is designed to follow Geometry in our mathematics curricular sequence. It is faster paced and more rigorous than Algebra 2. The first part of the course deals mainly with manipulating algebraic expressions and solving various types of equations, while the latter part of the course covers special topics, such as sequences and series. This course is a requirement for students continuing on to our Honors Pre-Calculus and Trigonometry course.
- **COLLEGE PREP MATHEMATICS – .5 credit**  
**GRADEs 11-12 ONE SEMESTER COURSE**  
**PREREQUISITES: ALGEBRA 2 or HONORS ALGEBRA 2**  
 This course is designed for the college-bound senior who wants to continue in their study of challenging topics in mathematics. Topics covered will include trigonometry as well as a survey of topics in algebra and geometry.
- **COLLEGE STATISTICS - .5 CREDIT / dual credit with KCC**  
**GRADES 11-12 ONE SEMESTER COURSE**  
**PREREQUISITES: ALEKS score of 30-45% OR a minimum ACT MATH score of 19**  
 This course focuses on the following Statistics topics: descriptive statistics, correlation and linear regression, inferential statistics and probability distributions as applied to confidence intervals, hypothesis testing, and applications to business and other fields. This course is designed for the college bound student and is designed to offer challenge.
- **HONORS PRE-CALCULUS and TRIGONOMETRY – 1.0 credit**  
**GRADES 11-12 YEAR LONG COURSE**  
**PREREQUISITES: ALGEBRA 1, GEOMETRY, and HONORS ALGEBRA 2 (a minimum grade of B in Honors Algebra 2 is highly recommended)**  
 This course is designed for students interested in the sciences, engineering, mathematics, business, or other college related careers with a strong mathematical emphasis. Areas of study include polynomial functions, logarithmic and exponential functions, graphing, trigonometric identities and equations, vectors, complex numbers, sequences and series, and problem solving. Emphasis will be on real-world application of mathematical concepts. Second semester is dedicated primarily to studying trigonometry.

- **HONORS CALCULUS – 1.0 credit**  
**GRADE 11-12 YEAR LONG COURSE**  
**PREREQUISITES: HONORS PRE-CALCULUS and TRIGONOMETRY**

The curriculum in this course will follow an AP Calculus syllabus, and is designed to cover the same material as a college semester-long Calculus I course. At the end of this course, all students will be encouraged to take the AP Calculus AB examination with the potential to earn college credit at many universities.

## MUSIC DEPARTMENT

### MUSIC CAREER OPPORTUNITIES

<b>Actor</b>	<b>Dancer</b>	<b>Orchestra Leader</b>
<b>Actress</b>	<b>Dramatic Reader</b>	<b>Orchestrator</b>
<b>Arranger of Music</b>	<b>Impersonator</b>	<b>Organist and Pianist</b>
<b>Choir Director</b>	<b>Manager Sales</b>	<b>Piano Tuner/Technician</b>
<b>Choreographer</b>	<b>Musician</b>	<b>Popular Singer</b>
<b>Chorus Dancer/Singer</b>	<b>Music Critic</b>	<b>Radio or TV Director</b>
<b>Clergy</b>	<b>Music Librarian</b>	<b>Recreational Therapist</b>
<b>Comedian</b>	<b>Music Supervisor</b>	<b>Religious Ed Director</b>
<b>Composer</b>	<b>Musical Director</b>	<b>Sales Clerk</b>
<b>Concert Singer</b>	<b>Musical Entertainer</b>	<b>Teacher</b>
<b>Conductor</b>	<b>Occupat Therapist</b>	

## Available Classes

- **BAND - 0.5 credit/semester**  
**GRADES 9-12 YEAR LONG COURSE**  
**NO PREREQUISITES**

Emphasis will be on giving students' knowledge through experience in a variety of styles of instrumental music. This class includes Marching Band in the fall and Concert Band for the rest of the school year. Marching Band presents seven (7) or more public performances including home football games, a parade, and two or three competitions. Concert Band presents four (4) or more public performances including concerts and contests. Opportunities are available to participate in other instrumental activities such as Jazz Band or Pep Band as well as contest solos and small ensembles. Students receive group instruction during Band and have an individual or small group lesson.

- **EARLY BIRD MARCHING BAND - 0.125 credit (2-3 days/week) (1<sup>st</sup> QUARTER)**  
**GRADES 9-12**  
**NO PREREQUISITES**

Students signed up for BAND will automatically be registered for the early bird portion of band. Early Bird Marching Band is a required part of the band class (see above). Students will be given credit for both Early Bird Marching Band and for the standard Band class.

- **CONCERT CHOIR 0.5 credit/semester**  
**GRADES 11-12 WOMEN AND 9-12 MEN**  
**NO PREREQUISITES**

**YEAR-LONG COURSE**

All women grades 11 – 12 and all men grades 9 - 12 will participate in concert choir. Students will develop an advanced understanding of proper breathing technique, vowel formation, posture, and music theory. Students will be exposed to a variety of quality choral literature while exploring various styles with an emphasis on a cappella singing. Foreign languages are common. Basic elements of music theory will also be explored. Students are encouraged to grow individually while understanding the importance of individual commitment to excellence in building a quality ensemble. Students are required to take three private lessons per quarter. These must be done individually. Students are also required to attend and perform in concerts both in and out of school. Students are encouraged to participate in small group contest but will not be required to do so. Additional vocal experiences available include: Madrigal Singers, Select Chamber Choir, Mixed Jazz Choir, Girls' Jazz Choir and possible selection for many honor choirs.

- **WOMEN'S CHOIR 0.5 credit/semester**

**GRADE 9-10 WOMEN unless otherwise auditioned into concert choir**      **YEAR-LONG COURSE**  
**NO PREREQUISITES**

All 9 – 10 women will sing in women's choir unless otherwise auditioned into concert choir. Here, they will develop a basic understanding of proper breathing technique, vowel formation, posture, and music theory. Students will be exposed to a variety of quality choral literature. Basic elements of music theory will also be explored. Students are encouraged to grow individually while understanding the importance of individual commitment to excellence in building a quality ensemble. Students are required to take three lessons per quarter. These may be done individually or in groups of two. Students are also required to attend and perform in one concert per quarter and State Large Group Contest. Students are encouraged to participate in small group contest but will not be required to do so. Students will also have the opportunity to audition for jazz choir and All-State. Additional vocal experiences will also be available.

- **ORCHESTRA 0.5 credit/semester (students taking band AND orchestra will receive 1.0 credit per semester)**  
**GRADES 9-12**      **YEAR-LONG COURSE**

**PREREQUISITES: Prior participation in orchestra or audition for instructor**

This course is open to all string players interested in playing orchestral literature and chamber music. Orchestra presents five or more public performances during the year, including concerts and contests. Members from this group can also choose to participate in honor orchestras, solo/ensemble contest, and musical pit orchestra. Students receive group instruction during Orchestra class and have an individual or small group lesson.

- **MUSIC HISTORY & THEORY 0.5 credit**

**GRADES 11-12 (open to students who have been enrolled in HS Band, Choir, or Orchestra. 10th grade students may enroll with instructor approval)**

Students will gain an understanding of music theory concepts, including but not limited to: chord structure, interval identification, voicing, and notation. Emphasis will be placed upon moving beyond the basics into a deeper understanding of musical form and structure. Students will gain an understanding of music in an historical context. Emphasis will be placed on the time periods that shaped western music and the influences they still have on music today. This class is for students interested in participating in music after high school and serves as an opportunity to gain additional understanding beyond what is provided in the performance ensembles. This class is team taught by Mr. Weber and Mr. Wilkins.

# PHYSICAL EDUCATION/HEALTH DEPARTMENT

## PHYSICAL EDUCATION/HEALTH CAREER OPPORTUNITIES

Bacteriologist	Orthopedic Surgeon	Sanitary Engineer
Business Administration	Osteopath	Social Worker
Chiropractor	Physical Therapist	Speech Health-Pathologist
Dental Hygienist	Practical Nurse	Sports Writer or Editor
Dental Assistant	Professional Athlete	Swimming Instructor
Dentist	Public Administrator	Teacher
Dental Technician	Public Health- Engineer	Umpire
Fitness Training Spec.	Public Health-Educator	Virologist
Exercise Science	Public Health-Statistician	
Laboratory Technician	Recreation Leader	X-Ray Technician
Lifeguard		
Model		

## Available Classes

Physical Education is a state and school district requirement for all students each school year. This PE requirement may be waived by the high school principal for the following reasons:

1. Physical disability waiver – physician’s written approval is required.
2. Religious waiver – parental written request is required.

Students who qualify for the waivers listed above must still complete the minimum credits (25.5) for a MVHS diploma. Courses that are waived DO NOT earn credit.

- **MUSTANG STRENGTH & SPEED PHYSICAL EDUCATION - .5 credit**

**GRADES 9-12 ONE SEMESTER COURSE (repeatable course, can take both semesters)**

**\*\*Mustang Strength & Speed PE will also be offered as an Early Bird option, every other day all year**

**NO PREREQUISITES**

This course is designed for athletic strength and fitness training as it is the hope that all athletes (and any student interested in strength training) will take this course to get their strength training during the school day, thus saving practice time for coaches. The emphasis of this course is on injury prevention, increased durability, strength, power, speed, agility, body composition, mobility, and flexibility. Weight room safety, warm-up procedures, cool-down procedures, lifting technique, major muscle identification, and individual goal setting are all important components of this course.

**\*\*For EB Mustang Strength & Speed PE, enrollment priority will be given to seniors and juniors and those underclassmen with year-long elective courses.**

- **LIFETIME FITNESS - .5 credit**

**GRADEs 9-12 ONE SEMESTER COURSE**

**\*\*Lifetime Fitness will also be offered as an Early Bird option, every other day all year**

**NO PREREQUISITES**

Students will be taught and instructed in lifetime activities that they will be able to do in their lifetime as an adult. Students will learn fundamentals of each game and be able to practice their skills during class. Games that will

potentially be taught include Badminton, Basketball, Bowling, Fitness, Golf, Kickball, Pickleball, Softball, Tennis, Volleyball, Whiffle-ball, etc. Fitness testing and training will be every other day during the units of the course.

**\*\*For EB Lifetime Fitness PE, enrollment priority will be given to seniors and juniors and those underclassmen with year-long elective courses.**

- **HEALTH PURSUITS - .5 credit**

**GRADES 10-12 ONE SEMESTER COURSE**

**PREREQUISITE: FRESHMAN HEALTH**

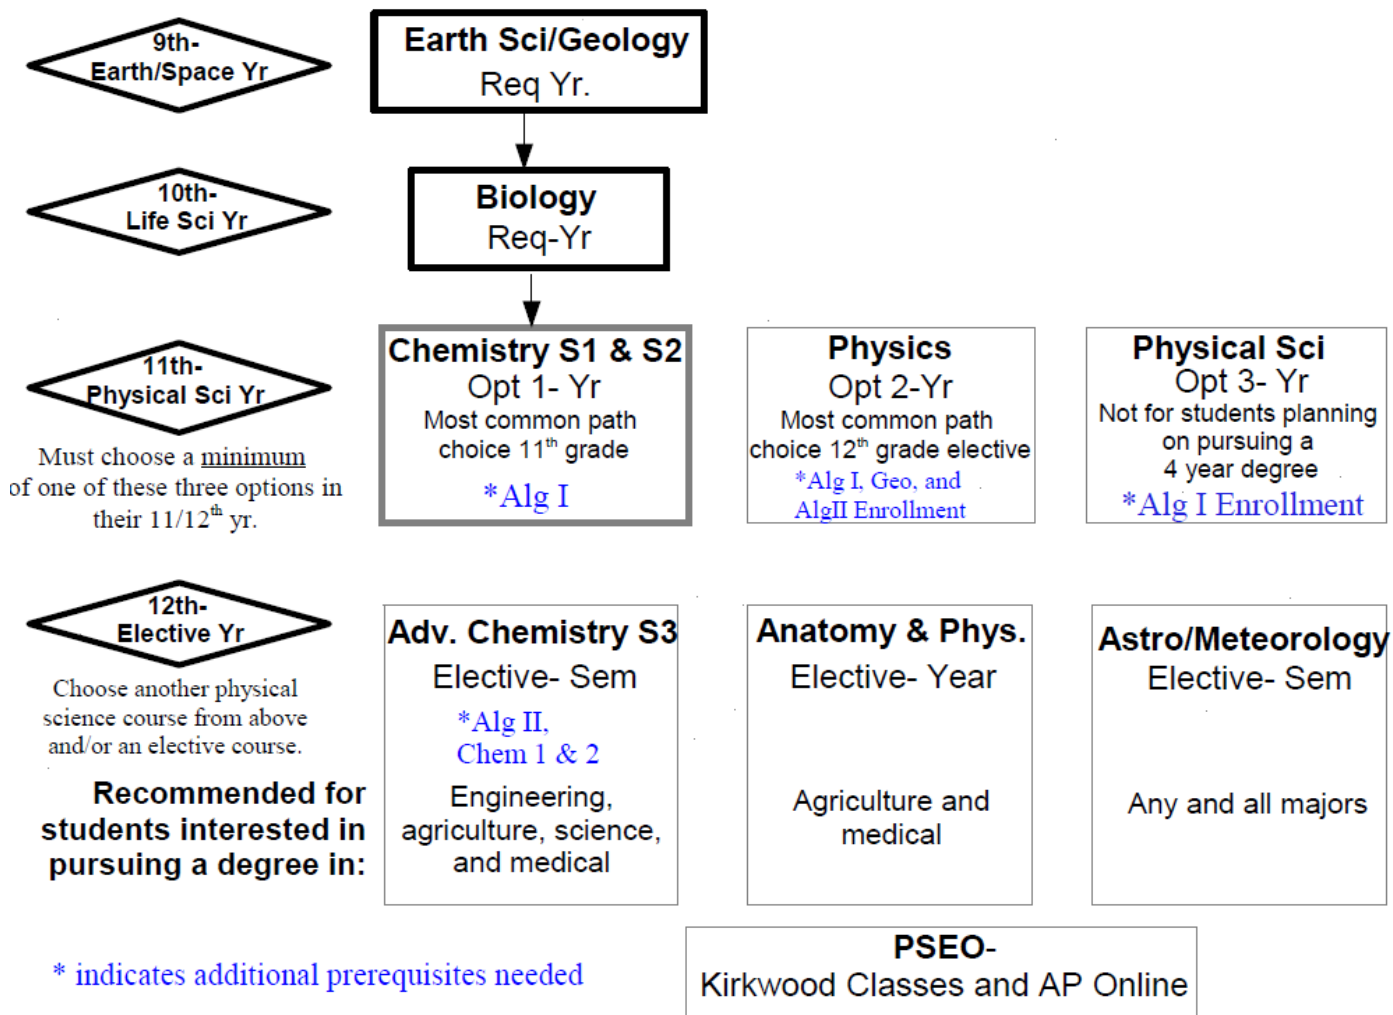

This course is intended for students that have an interest in learning about many aspects of health and wellness. Some components of the course include: health and wellness, careers, nutrition, exercise physiology, and mental health. Some activities that will supplement coursework include: team building, hiking, Frisbee golf, and more.

## SCIENCE DEPARTMENT

### SCIENCE CAREER OPPORTUNITIES

Annealer Welder	Electrolysis Plater Entomologist	Nursery Operator
Anthropologist	Environmental Scientist	Nutritionist
Artist	Exterminator	Occupational Therapist
Assayer	Farmer or Rancher	Pharmacist
Bacteriologist	Family/Consumer Scientist	Physical Therapist
Biochemist	Fish/Wildlife Service	Physician/Surgeon
Biologist	Forest Ranger	Photographer
Botanist	Game Warden	Practical Nurse
Ceramic Engineer	Gardener	Research Chemist
Curator	Geologist	Registered Nurse
Chemical Engineer	Herpetologist	Research Nutritionist
Chem. Processing Plastics	Horticulturalist	Science Teacher
Dentist	Immunologist	Taxidermist
Dental Hygienist	Landscape Architect	Veterinarian
Detective	Laboratory Technician	X-ray Technician
Dietician	Medical Secretary	Zoologist
Ecologist	Metallurgist	

# Science Curriculum Guide

## Available Classes

**THE TWO (2) COURSES LISTED BELOW ARE REQUIRED OF ALL STUDENTS:**

- **EARTH SCIENCE / GEOLOGY – 1.0 credit**  
**GRADE 9 YEAR-LONG COURSE**  
**NO PREREQUISITES**

Earth Science/Geology is designed to provide the student with a basic understanding of his/her home planet. It is a science that deals with the Earth, its structure, changing processes, history and place in space. Special emphasis will be placed on studying Iowa's unique geological features and how they impact the entire planet.

- **BIOLOGY – 1.0 credit**

**GRADE 10 YEAR-LONG COURSE**

**PREREQUISITE: EARTH SCIENCE / GEOLOGY**

The course is divided into the following areas: Scientific methods, Chemistry of life, Ecology, Cells, Genetics, Evolution, and the human body. Biological principles are developed through laboratory experiences using methods of observation and scientific inquiry.

**THE FOLLOWING COURSES ARE SCIENCE ELECTIVES:**

- **CHEMISTRY S1 & S2 – 1.0 credit**

**GRADES 11-12 YEAR-LONG COURSE**

**PREREQUISITES: ALGEBRA I, BIOLOGY, EARTH SCIENCE/GEOLOGY**

This course is designed for students interested in attending a four year college. Students should have a working knowledge of algebra and be able to solve for unknowns in given equations. Topics of study include atomic structure, periodic trends, chemical compounds, chemical reactions, the concept of the mole, energy and reaction rate, and nuclear reactions. Students will be required to apply concepts in a laboratory setting and write formal lab procedures and analysis.

- **ADVANCED CHEMISTRY S3 – .5 credit**

**GRADES 11-12 ONE SEMESTER COURSE**

**PREREQUISITES: CHEMISTRY S1 & S2, ALGEBRA 2**

Chemistry 3 is designed to develop and build on the ideas and concepts gained in Chemistry S1 and S2. Additional emphasis is placed on reaction chemistry: acids, bases, equilibrium, thermochemistry, reaction kinetics, and organic chemistry. This course is designed to cover additional chemistry material not covered in the first year of chemistry, but that will be found in all introductory college chemistry classes. It is recommended for students interested in medical, engineering, or science-related fields.

- **PHYSICAL SCIENCE - 1.0 credit**

**GRADES 11-12 YEAR-LONG COURSE**

**PREREQUISITES - TWO (2) FULL YEARS OF SCIENCE, ALGEBRA 1**

Physical Science is an introductory one year program including information from both physics and chemistry. Our approach will be conceptual, with a heavy emphasis on general concepts and phenomena keeping with the developing mathematical skills of the students. There is not as much emphasis on the mathematical calculations as in Physics. Topics will include motion, forces, chemical reactions, atomic structure, structure and properties of matter, energy, heat, electricity, magnetism, light, and sound.

- **PHYSICS – 1.0 credit**

**GRADES 11-12 YEAR-LONG COURSE**

**PREREQUISITES: BIOLOGY, ALGEBRA 1, GEOMETRY, and COMPLETION OR ENROLLMENT IN ALGEBRA 2**

Physics is an in depth, one year program. Our approach will be a combination of lab based learning with conceptual and mathematical calculations. There is a heavy emphasis on the mathematics and ideas in Physics. We will focus on how mathematical calculations can give insight into the physical phenomenon. Topics will include motion, forces, gravitation, energy, machines, and possibly heat, waves, and light.

- **ANATOMY & PHYSIOLOGY – 1.0 credit**

**GRADES 11-12 YEAR-LONG COURSE**

**PREREQUISITE: BIOLOGY**

This course provides students with the fundamental concepts in anatomy and physiology. We will study the structure of the human body. This course is designed to help meet the individual needs of students to prepare for higher education and to study in an area of biological interest or health related profession.

- **ASTRONOMY / METEOROLOGY - .5 credit**  
**GRADES 11-12 ONE SEMESTER COURSE**

This course is split into two quarters; the first quarter will cover astronomy concepts. Astronomy is the study of the objects in space, including stars, planets, comets, and their origins. This course is designed to provide the students with an understanding of these topics; the history of space travel will also be investigated. The second quarter will discuss Meteorology concepts; students will develop an understanding of the unique conditions that take place daily to create the variety of diverse weather conditions experienced in the Midwest and other parts of the world.

## SOCIAL SCIENCE DEPARTMENT

### SOCIAL SCIENCE CAREER OPPORTUNITIES

Archaeologist	Foreign Service	Newspaper Editor/Pub
Archivist	Foreign Travel Escort Officer	Newspaper Reporter
Attorney	Geographer	Publishing
Behavior Researcher	Geologist	Radio News Reporter
Census Taker	Governor	Reference Librarian
Clergyperson	Historian	Research Director
Community Manager	Historic Site Administer	Social Worker
Conservation Officer	Historical Novelist	State Legislator
Conserv./Historical Papers	International Ed and Development	Stock Broker
Cultural Anthropologist	Internat.Exchange Program Director	Survey Interviewer
Economist	Judge	Teacher
Environmental Planner	Literary Writer	U.S. Senator/Rep
Export Manager	Missionary	Urban Planner
Foreign Correspondent	Museum Exhibits Director	Wire News Editor

## Available Classes

### THE THREE (3) COURSES LISTED BELOW ARE REQUIRED OF ALL STUDENTS:

- **UNITED STATES HISTORY – 1.0 credit**  
**GRADE 9 YEAR LONG COURSE**  
**NO PREREQUISITES**

United States History examines the major turning points in American history beginning with an intensive study of Mount Vernon History and then continuing on with the sequence from 8th grade, beginning with the Roaring 20s and continuing through the Great Depression, World War II, the growth of the United States, the Cold War and the Civil Rights Movement, Vietnam, Watergate, the resurgence of conservatism, the fall of the Berlin Wall, the technological revolution, 9-11, and additional topics continuing through the 1990s to the modern day. Attention is given to political issues, institutions, political parties, leadership, and diplomatic and constitutional questions, as well as economic, social, and intellectual trends. Current events are frequently included in class discussion as a means of studying contemporary history.

- **WORLD HISTORY – 1.0 credit**  
**GRADE 10 YEAR LONG COURSE**  
**NO PREREQUISITES**

World History is a survey of major eras in World History beginning with the Renaissance to the modern day, emphasizing major historical transformations and processes that have shaped the interrelated global experience. Topics include Reformation, colonization, imperialism, Enlightenment, the French Revolution, 19th Century Liberalism, industrialization, urbanization, socialism and nationalism as they have affected life in Europe, the Middle East, Asia, South America, and Africa in the modern era.

- **POLITICAL SCIENCE - .5 credit**  
**GRADE 12 ONE SEMESTER COURSE**  
**\*\*Political Science may be offered Early Bird, every other day all year, if enough requests indicate there is a need.**

**NO PREREQUISITES**

Political Science is the study of the structure of government at the federal, state, and local levels. Students will examine the party system, and the differing stances on issues taken by various political groups within the United States. The Bill of Rights is examined, with particular attention paid to freedom of speech, press, and religion along with search and seizure and gun control laws. Important Supreme Court cases are studied, and issues such as abortion, capital punishment, medical ethics cases, and affirmative action are debated. Students are encouraged to become active citizens by writing their legislators about local issues of their choosing. Students are required to do research and complete various writing assignments and projects throughout this course. Class discussion and debate are emphasized in grading.

**THE FOLLOWING COURSES ARE SOCIAL SCIENCE ELECTIVES:**

- **AP WORLD HISTORY - 1.0 credit**  
**GRADES 11-12 YEAR LONG COURSE**  
**(May be taken by 10th grade ELP students in place of World History - with department approval)**  
The AP World History course focuses on developing students' understanding of world history from approximately 8000 B.C.E. to the present. The course has students investigate the content of world history for significant events, individuals, developments, and processes in six historical periods. The course also provides five themes that students explore throughout the course encompassing the five major geographical regions of the globe: Africa, the Americas, Asia, Europe, and Oceania.  
**\*\*This is a college level course. Students are encouraged to take the AP Exam in the spring to attempt to earn college credit.**
- **WOMEN IN U.S. HISTORY - .5 credit (2018-2019)**  
**GRADES 11-12 ONE SEMESTER COURSE**  
**NO PREREQUISITES**  
This course addresses the history of women in the United States from the colonization of North America through modern times. This class will focus on the impact that women have had on the development of the United States and how women's roles have changed over time. Students will look closely at how women's historical experiences challenge our understanding of American history. This class will consist of class lectures, primary documents, class discussions, movies, group and individual research projects. \*\* Sophomores are able to take this course with instructor permission, and two semesters of an 'A' in U.S. History.
- **THE AMERICAN WEST - .5 credits (2017-2018)**  
**GRADES 11-12 ONE SEMESTER COURSE**  
**NO PREREQUISITES**  
In this course we will explore the Old West. We will learn about the American West and how it shaped our nation's history. We will cover topics that are of interest to you including early explorers, Native Americans, fur traders, miners, cowboys and of course frontier men and women. Class will consist of lectures, both individual and group projects, movies, reading and internet research. \*\* Sophomores are able to take this course with instructor permission, and two semesters of an 'A' in U.S. History.
- **CRIMINAL JUSTICE- .5 CREDITS**  
**GRADES 11-12 ONE SEMESTER COURSE**  
**NO PREREQUISITES**

In this course you will learn how our criminal justice system in America operates as well as develop a good understanding of how court decisions affect our lives. We will examine how our criminal justice system tries to balance individual rights with social concerns. We will spend a good deal of time discussing and sharing hot topics in criminal justice that interest you. Class will consist of lectures, debates and discussion, mock trials, individual and group projects and a trip to the Crime Lab.

- **INTRODUCTION TO PSYCHOLOGY - .5 credit**

**GRADES 11-12 ONE SEMESTER COURSE**

**NO PREREQUISITES**

Psychology is a fascinating course which will engage students in the study of human thought, behavior and motivation. During the semester, students will survey various topics including an introduction to the subfields of psychology, the practice of mental health treatment in the United States today, the study of psychology across the lifespan, the psychology of learning, the biology of behavior, motivation and emotion and social psychology. This is a survey course which seeks to allow students to obtain knowledge of psychology and to apply this knowledge in order to have a better understanding of self and of others. Students will engage in class discussion, group projects, writing, research and analysis of relevant studies. \*\* Sophomores are able to take this course with instructor permission, and two semesters of an 'A' in U.S. History.

- **INTRODUCTION TO SOCIOLOGY - .5 credits**

**GRADES 11-12 ONE SEMESTER COURSE**

**NO PREREQUISITES**

In this class we will learn how society shapes human social behavior. Sociology is the study of social structures and how they affect our lives. In this class we will learn how people become socialized and the various social institutions that help mold us. We will learn about the role of family, schools, church, and the government as social institutions. We will cover topics that are of interest to you including the development of male and female gender roles, sexism in advertising, poverty in America, racism, deviance and issues facing teens. Class will consist of lectures, discussions, readings, individual and group projects and movies. \*\* Sophomores are able to take this course with instructor permission, and two semesters of an 'A' in U.S. History.

- **INTERNATIONAL RELATIONS - .5 credit (2017-2018)**

**GRADES 11-12 ONE SEMESTER COURSE**

**NO PREREQUISITES**

This course will introduce topics through an overview of international security, foreign policy, international organizations, international law, international politics, international political economy. Students will gain a clear understanding of the main theories of international relations and their applications to contemporary world issues. This course will focus on knowledge and analysis of current world and political affairs. Students must handle challenging reading, writing, and synthesizing assignments within this demanding course.

- **PROBLEMS OF A MODERN SOCIETY - .5 credit (2018-2019)**

**GRADES 11-12 ONE SEMESTER COURSE**

**NO PREREQUISITES**

This course explores relevant contemporary social issues. By nature, the content and topics studied in this course are organic. Integrating the fields of psychology, sociology and history, students will study contemporary problems at the local, state, national and global level. Students should leave the course with an ability to seek quality information about relevant topics, analyze contemporary problems both effectively and critically and to share that information in written and/or oral fashion. This is a student centered course which relies on student research, collaboration and upon a high level of engagement from each student in the classroom. This is a great fit for students interested in contemporary issues facing our world today. \*\* Sophomores are able to take this course with instructor permission, and two semesters of an 'A' in U.S. History.

- **SPORTS IN AMERICAN SOCIETY - .5 credit**

**GRADES 11-12 ONE SEMESTER COURSE**

**NO PREREQUISITES**

This class will study the influence sports have had on our society and culture. Students will study the historical development of amateur and professional athletics. The psychological and sociological perspectives of sports will also be studied. Class content will be adjusted to include the interests of students enrolled in the course and to include current issues in sports.

## LEARNING SKILLS PROGRAM

- **DIRECTED STUDIES - 1.0 credit**

**GRADES 9-12 YEAR LONG COURSE**

**PREREQUISITES: PLACEMENT BY STUDENT STUDY TEAM**

This course provides students with structured study time within a small group setting. Students will work on skills such as communication, writing, reading, and study skill development. IEP goals and objectives are worked on during this class. Generally, students in the Learning Skills Program will be enrolled in at least one period daily in a Directed Studies class.

## VOCATIONAL COURSES

- **ELEMENTARY AIDE - .5 credit**

**GRADES 10-12 ONE SEMESTER COURSE**

**PREREQUISITES: Completion of contract; willingness / ability to work directly with elementary students**

An elementary aide will assist in a Washington Elementary classroom working in cooperation with and under the supervision of the regular classroom teacher. The aide will have a chance to experience the many responsibilities and tasks that are part of a teacher's every-day activities. Daily attendance is required. Grading is Pass or Fail and is based on daily attendance, teacher evaluation, and the completion of a final paper. Actual classroom placement will be assigned by Washington Elementary based on the needs of the staff. *A student may take the Elementary Aide course a maximum of two semesters while in high school.*

- **WORK STUDY - .5 credit**

**GRADES 11-12 ONE SEMESTER COURSE**

**PREREQUISITES: COMPLETION OF APPLICATION**

This is a vocational program designed for juniors and seniors. During the work portion of the curriculum, students will keep a log of hours worked. Regular attendance at the job site is required. Transportation to the job site is the student's responsibility. Grading will be based on a pass/fail basis. An evaluation form completed by your work supervisor and the completion of a final paper at the end of the semester is required for successful completion of this course.

## Available Classes

- GERMAN 1 – 1.0 credit**  
**GRADES 9-11 YEAR LONG COURSE**  
**NO PREREQUISITES**

Students will develop basic skills for communicating in German: listening, reading, writing and speaking skills will be emphasized. The focus will be on vocabulary acquisition and practice of German expressions. Students may use songs, pictures, videos, games, role playing, and memorizing expressions to develop that focus. During the course, students will learn and demonstrate speaking survival skills in simulated social situations. Learning about the culture of German speaking countries will be introduced and integrated as a part of learning the German language. A grade of C- or better must be earned in order to proceed to the next semester of German. There may be special consideration given upon instructor approval.
- GERMAN 2 – 1.0 credit**  
**GRADES 10-12 YEAR LONG COURSE**  
**PREREQUISITE: GERMAN 1**

The language skills and cultural knowledge acquired in German I will be expanded in order that students will be able to cope with a greater depth and diversity in classroom and social situations in German. In addition to continuing the activities experienced in German I, students will be doing more reading and short writing assignments. A grade of C- or better must be earned in order to proceed to the next semester of German. There may be special consideration given upon instructor approval.
- GERMAN 3 – 1.0 credit**  
**GRADES 11-12 YEAR LONG COURSE**  
**PREREQUISITE: GERMAN 2**

In German III, students will increase their reading and writing skills, while continuing to improve their speaking and listening skills. An increased emphasis will be placed on grammar. Students will reenter previously acquired skills and expand them in novel ways. Linguistically, they will be learning to respond to situations which move beyond memorized dialogues and phrases. A grade of C- or better must be earned in order to proceed to the next semester of German. There may be special consideration given upon instructor approval.
- HONORS GERMAN 4 – 1.0 credit**  
**GRADE 12 YEAR LONG COURSE**  
**PREREQUISITE: GERMAN 3**

German IV is the culmination of the four-year sequence. Students will devote more time to reading and writing. They will study advanced grammatical structures and expand their vocabulary. Modern German literature and poetry, art and architecture, history, films and radio dramas will be some of the areas the students will explore. Students will increase their ability to function in German in social situations by learning methods of circumlocution. They will also practice test-taking in preparation for college entrance exams. A grade of C- or better must be earned in order to proceed to the next semester of German. There may be special consideration given upon instructor approval. If there is sufficient enrollment, the AP curriculum for German 4 will be taught.

- **SPANISH 1 – 1.0 credit**  
**GRADES 9-11 YEAR LONG COURSE**  
**NO PREREQUISITES**

The Spanish language is studied by developing the student's listening, speaking, reading, and writing skills. The student is introduced to basic vocabulary and grammar structures of the language; thus enabling the student to speak and write in simple sentences about themselves and others. Class activities stress finding meaningful and practical applications of Spanish in their lives. Students will study cultural diversity and work on developing a non-judgmental approach to cultures other than our own. Students are informed of and encouraged to attend cultural events outside of class. A grade of C- or better must be earned in order to proceed to the next semester of Spanish. There may be special consideration given upon instructor approval.

- **SPANISH 2 – 1.0 credit**  
**GRADES 10-12 YEAR LONG COURSE**  
**PREREQUISITE: SPANISH 1**

In Spanish 2 grammar patterns are studied in greater depth. Emphasis is placed on acquiring a range of vocabulary useful in everyday communication including: using the telephone, speaking of normal daily routines, making polite requests, giving commands, getting around the city, going shopping, and discussing what happened in the past, what is happening now and what will happen in the near future. Students are expected to speak and read more Spanish on a daily basis. They participate in daily exercises to increase their oral and written skills in the language and are assigned projects which are presented or recorded for later review. Culture is integrated in all facets of the curriculum to bring the language to life and heighten the students' awareness of issues facing Hispanic populations. Students are informed and encouraged to attend cultural events outside of class. By the end of the second year, students should be able to narrate actions in the present, present progressive, and simple past tenses. A grade of C- or better must be earned in order to proceed to the next semester of Spanish. There may be special consideration given upon instructor approval.

- **SPANISH 3 – 1.0 credit**  
**GRADES 11-12 YEAR LONG COURSE**  
**PREREQUISITE: SPANISH 2**

Emphasis is placed on broadening the student's listening, reading, writing, and speaking skills. Students are expected to use the Spanish language every day in class. The student is introduced to more tenses in the Spanish language. The student is required to give speeches using these various tenses. Culture is discussed through the readings of authentic materials in the target language (newspapers, magazines, short stories, and poetry). A grade of C- or better must be earned in order to proceed to the next semester of Spanish. There may be special consideration given upon instructor approval.

- **HONORS SPANISH 4 – 1.0 credit**  
**GRADE 12 YEAR LONG COURSE**  
**PREREQUISITE: SPANISH 3**

The emphasis of Honors Spanish 4 is quality practice and fine tuning of the student's listening, speaking, reading and writing skills through a wide variety of curricular resources and activities. Students are expected to speak Spanish almost exclusively in class every day and to discuss and give oral presentations regularly. Early on, the skill of circumlocution is practiced to aid in a quick growth curve of student confidence and competence in oral communication. Written work is emphasized through a variety of literary projects requiring creativity, analysis, problem-solving, and expressing opinions. Students practice and enhance their listening skills through role play, intensive communication exercises, guest speakers, and Hispanic music and film. Students study additional topics in advanced grammar, as well as Hispanic literature and history. By the completion of Spanish 4, students are expected to comprehend, speak, read, and write using both basic and more advanced vocabulary and grammar. A grade of C- or better must be earned in order to proceed to the next semester of Spanish. There may be special consideration given upon instructor approval.

The Mount Vernon Community School District will not discriminate on the basis of race, color, age, national origin, sex, sexual orientation, gender identity, marital status (for programs), socioeconomic status (for programs), disability, religion, and creed. Students, parents, employees and others doing business with or performing services with the district who feel that they have experienced discrimination are encouraged to contact Matt Thede, Equity Coordinator, Mount Vernon Community High School, 731 Palisades Road SW, Mount Vernon, IA 52314, telephone: [319-895-8843](tel:319-895-8843) x4005, where our district has a grievance procedure for processing complaints of discrimination. Inquiries may also be directed in writing to the Director of Civil Rights – Region VII, US Department of Education, 310 W. Wisconsin Ave., Suite 800, Milwaukee, Wisconsin 53203-2292 (phone: 414-291-1111) or to the Iowa Department of Education, Grimes State Office Building, Des Moines, Iowa, 50319-0146 (phone: 515-281-5294).
